Collaborative Chair

NOVAH® EDU

Same Module DNA,
Infinite Scenario Possibilities

Designing educational spaces centers around adapting to the diverse needs of individuals. This demands that our learning spaces possess both modularity and flexibility.

Functionally, the space must be capable of being freely reorganized to meet the demands of diverse scenarios, from focused individual study areas to collaborative shared classrooms, comfortable dining spaces, or quiet libraries. Emotionally speaking, the space needs to offer comfort while also inspiring creativity and innovation.

To realize this vision, we require a modular furniture system. Built upon a unified design language as its genetic core, it can effortlessly adapt to various teaching and learning modes through simple reconfiguration. This approach guarantees both the visual cohesion of the space and empowers every corner with the specific, personalized functionality it requires.

DESIGN STORY

"Every time you sit down, it feels like sinking into gentle dunes."

Inspiration:

The shell's design draws from the natural curves of wind-sculpted desert dunes—the smooth slope on the windward side and the steep arc on the leeward side—creating a dual-curved structure that ergonomically supports the body. Its unique matte texture mimics the flow of sand grains, offering a subtle granular sensation to the touch, as if brushing against the very skin of a desert.

Bookbag Rack with Worksurface: Chair Shell Lo01/Lo03 /Lo04 + Frame_ K47 + Bookbag Rack_P27

Multimedia Classroom |
A Tech-Integrated Zone for Focus and Connection

Shift from lecture to collaboration—effortlessly, with a single chair. The uniform tablet chairs provide a dedicated surface for notes and deep thought, with widened tops that easily accommodate books or tablets. Their easy-swivel design allows the classroom to transform instantly from orderly rows into interactive discussion circles. Within a traditional layout, these chairs spark active participation, enabling heuristic teaching to flow naturally.

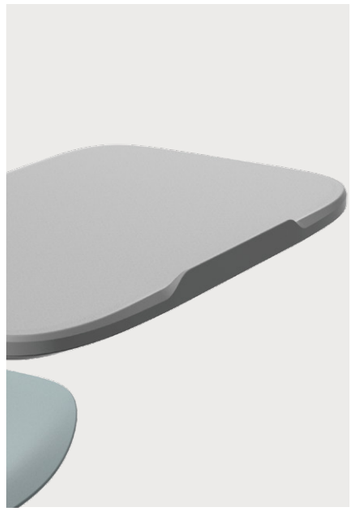
Collab Mode

Book Bag Rack

Keeps book bags secure while providing foot support.

Cup Holder

The optional cup holder swivels under the desk panel when not in use.



Writing Board

Engineered with a widened and deepened surface, it is specifically designed to securely hold a laptop.

Campus Dining Hall |
A Hub of Dynamic Interaction

Flexibility and vitality intertwine here. The uniform four-legged chairs group freely around tables, accommodating quick meals as well as group discussions or casual socializing. Their lightweight design allows easy rearrangement to suit spontaneous activities, creating a vibrant community atmosphere in the open space.

Four-Leg Base: Chair Shell_RG05 + Upholstery_V08 + Frame_R01

Stacking

With just a gentle lift, 10 chairs transform into a sleek vertical tower – maximizing space while maintaining elegant order.

Felt Pads

Woven from delicate fibers, they provide hushed protection – each movement as gentle as a cloud grazing the ground.

Standard Classroom |
A Space for Focus and Order

In fixed-layout classrooms, order and focus form the foundation of learning. The uniform four-legged chairs provide steady support, while their clean lines and orderly arrangement reinforce a sense of structure. The linear layout ensures clear sightlines, minimizing distractions and naturally directing attention to the front of the class—creating a pure, efficient environment for knowledge transfer.

School Lecture Hall |
A Flexible Space for Academic Focus

The sled-base chair features a unique curved design that ensures silent, stable performance in lecture halls. The arched base maintains balance during leaning movements, eliminating disruptive noise. Its ground-hugging profile saves space while simplifying cleaning. When arranged in orderly rows, it creates a formal academic atmosphere, while providing ergonomic support for individual use.

Library |
A Silent Foundation for Focus

True silence begins with stable seating. The four-legged chair's multi-directional glides intelligently adapt to subtle floor imperfections, automatically leveling themselves. Every movement is silent and rock-steady, providing reliable, undisturbed support for deep focus.

Sled Base Stool H65/H75: Chair Shell_RG01/RG02 + Upholstery_VN205 + Frame_R03/K46

Campus Dining Hall |
Hub of Dynamic Gathering

Vitality and diversity flourish here. Two heights of bar stools with matching tables naturally define distinct functional zones. The higher seats are ideal for quick meals and spontaneous conversations, while the lower ones provide comfortable support for group discussions or short study sessions. A unified design language maintains visual coherence while enabling seamless transitions between different modes of use, creating a vibrant campus community atmosphere.

Round: Table Board _M2 + Round Base + Leg Column_K17

Corridor Huddle Nook |
A Quiet Hub for Casual Connection

Can be flexibly arranged anywhere in campus corridors to create intimate gathering spaces. Two upholstery options are available: fully upholstered for ergonomic support and lasting comfort, and seat-only upholstery for minimalist style and easy maintenance. Paired with simple fixed tables, the layout blends naturally with pedestrian flow without disrupting access. Perfect for casual chats, one-on-one conversations and small group discussions, turning corridors into elegant quiet zones for relaxed communication.

Cluster H: Table Board_M21 + Table frame_K17

Active Learning Collaboration Studio | **An Interactive Zone for Idea Collision**

The whiteboard fosters creative interaction, while the fixed shared table accommodates up to eight people for round-table discussions. Swivel chairs deliver flexible seating adaption, ideal for small-group training, panel discussions and project co-creation. It builds an immersive collaborative atmosphere for face-to-face communication and integrated thinking.

Bar Stool (Adjustable): Chair Shell_RG01
Round: Table Board _M21+Round Base + Leg Column_K17

Campus Pantry & Break Lounge | **A Resting Retreat for Relaxation**

Low-back height-adjustable bar stools adapt to diverse resting postures and form independent leisure corners with standard high tables; the seat height can be adjusted freely to meet the needs of tea breaks, interval relaxation and casual communication between teachers and students. With a sleek minimalist appearance, stable silent movement and easy daily maintenance, it builds a soothing, relaxing and healing buffer rest space amid the busy campus circulation.

Bar stool: Chair Shell_RG06 + Frame_RG02
Arder: Table Top/Footboard_LO-Oak Color

Campus Commons Lounge |
A Relaxed Venue for Informal Gathering

Making full use of idle space, high tables are matched with low-back bar stools to deliver unrestricted seating and a laid-back atmosphere, ideal for after-class leisure, independent study, club gatherings and casual group discussions, shaping a youthful, casual informal social gathering venue on campus.
