NOVAH®

For thousands of years, the thirst for future science and technology has urged human beings to achieve self-breakthrough again and again. People gradually develop a tough and resolute personality. They abandon common practice and become the masters of their own lives with passion. The door to the future has opened. With the advent of the era of NOVAH geometry, it not only sets off a wave for exploring future in the industry of office furniture, but also causes a brand-new brain storm.

Gate supporting system can meet all working demands for office spaces by virtue of its elegant and minimalist design and the adaptability for multi-space & multi-system. The modular and systemic design also makes the style of entire office space even more unified and complete. The design of unique adjustable crossbeam supporting system takes the demand change after use of long time into consideration, so it's only required to replace the workbench to satisfy the demands of changes. In addition to saving time and labor, it also reduces the waste of resources. The concept of sustainable development has been implemented throughout the design of GATE system.

GATE, Freestanding desk **Endless activation system**

Open the future

Work Wave

Flexible space allocation is suitable for independent and open space notion. All of these designs make GATE stand on a creative base of avant-garde art and sparks uninhibited unruly and unique design thinking.

Page 11-12

Meeting Desk

In the meeting room that sparks inspiration, the conference table with plain lines are elegant in style and simple in decoration.

Page 23-24

Work Wave

The three-pointed star-shaped cable trough divides out three spaces artfully, vividly presenting the entirety and locality of space.

Page 13-14

Executive Desk

Elegant and fine aluminum silver brushed GATE support leg and chamfer trimmed table board design reflect the consistent concept of elite.

Page 17-18

Long bench

The system is a perfect blend of modern life fashion and free style, and displays its faithful adherence to the style of simplicity.

Page 09-10

Executive Desk

Elegant and classic style returns to innocence, and clean lines outline the extraordinary leadership of contemporary elites.

Page 19-20

Freestanding desk

Whether for one system, one space or a state: GATE always deals with changes by sticking to a fundamental principle. GATE system has plentiful configurations, which enable it to satisfy individualized demands for different office spaces and construct a comfortable and efficient operation platform. The characteristics of unified style, flexibility to change, high-efficiency integration and extension are the core concept of GATE system.

Meeting changes with constancy enhances the resources efficiency

Long Bench

Slim and lightweight desk screen perfectly blends into GATE as a whole. Supported by the stable and firm bearing, the overall line is coherent and smooth, highlighting the strong self-confidence and energy in the absolute stillness. Combining the elegant and simple structure with the Euroline movable cabinet that implements diversity and practicality achieves the perfect balance of people's pursuit between the functionalism and ornamentation.

The combination of Slimo steel cabinets makes the zone division more comfortable and free. Super-thin design and back veneer pasted with fabrics that are free to choose magically constitutes an "art gallery" in the ordinary office. And it creates the largest storage space with minimum office area.

Work Ware

The system injects fashionable design elements into office space. It integrates well the kernel of meticulous tradition and flaunty fashion and creates a kind of brand new personalized fashion. Flexible space allocation is suitable for independent and open space notion. All of these designs make GATE stand on a creative base of avant-garde art and sparks uninhibited unruly and unique design thinking.

The brushed clamshell cable box or aluminum bi-direction flip cable box are provided for the table top, with the purpose to avoid visual defects caused by dust accumulation on lines. We focus on all the details and strive for excellence in every detail, hoping to creating perfect and new office experience.

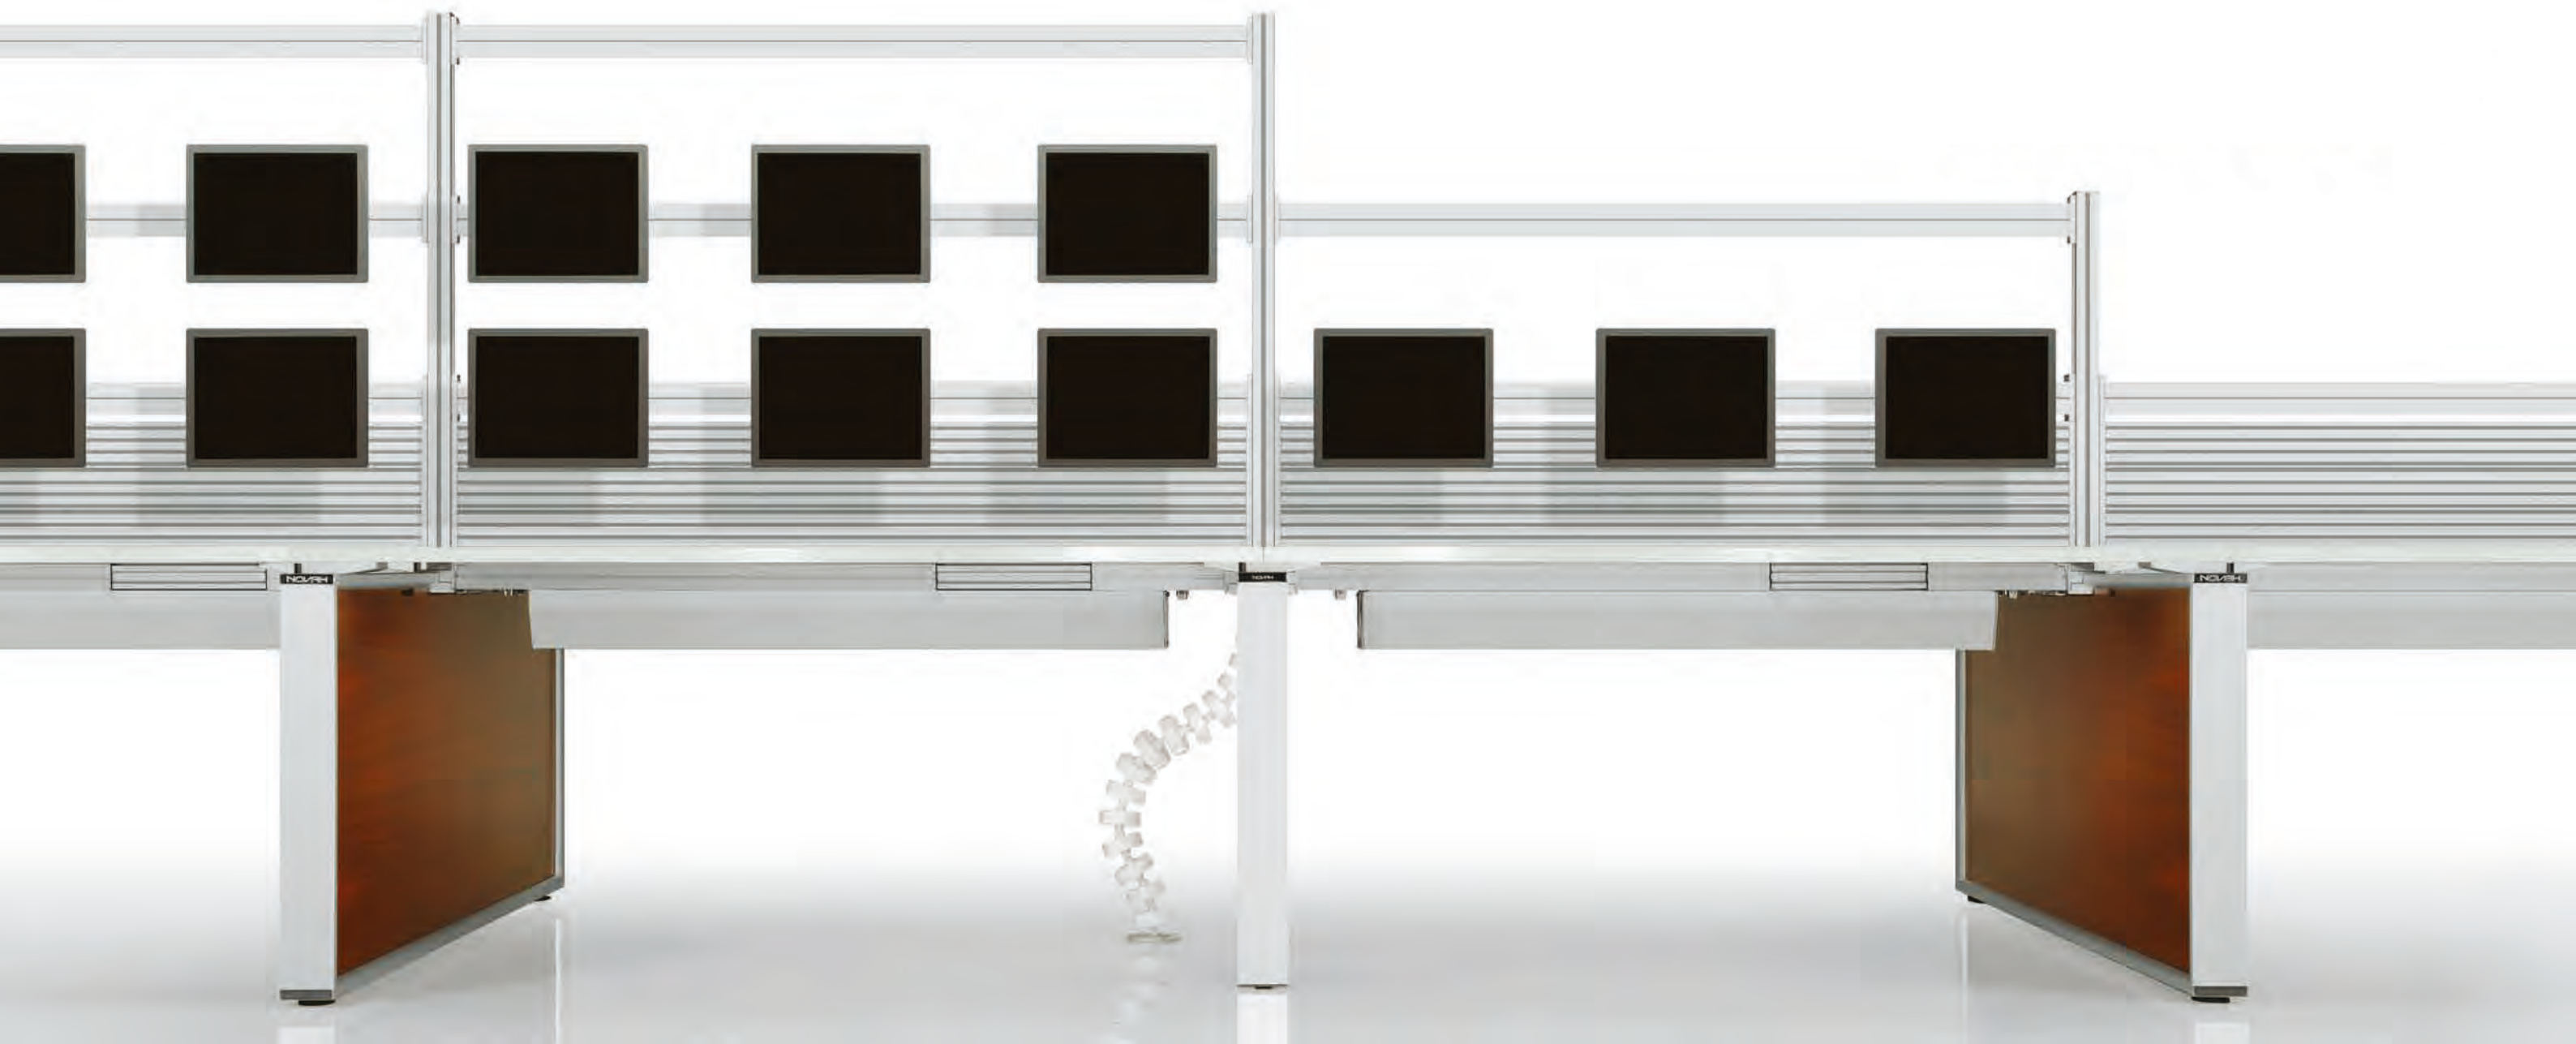

The three-pointed star-shaped cable trough divides out three spaces artfully. 5mm small and light desktop simple screen and optional first-class of aluminum alloy frame (thickness 2mm+) vividly present the entirety and locality of space.

Financial System

In the financial field, GATE series transcend the difference of industry fields and focus on the needs of enterprises. There is a position for hanging and mounting double-layer visual equipment, allowing users to use six visual equipment simultaneously. Besides, large capacity cable trough hidden under the table fully meets the configuration requirements of multi-interface operation. Outstanding quality and reliable support help you accomplish extraordinary achievements.

Excutive Desk

Blending graceful tradition with fashionable elements to promote exchange and resonance of ideas. The executive desk series with first class aluminum GATE support leg are the work of genius of design masters. They can be used together with the support system with built-in sheets. In such design, eastern and western culture and art are organically mixed and performs a magnificent century movement.

Executive Desk

Elegant and classic style returns to innocence. First-class aluminum alloy frame support leg, high-quality E1 grade table board gives a more stereoscopic 3D image. Thin and light desktop with exquisite support system, quietly tell their quality of firmness and endurance from their profound accumulation, and clean lines outline the extraordinary leadership of contemporary elites.

Executive Desk

Elegant and fine aluminum silver brushed GATE support leg can form spatial layout combining of virtuality and reality when it is used together with multiple types of steel-made front panel. And the chamfer trimmed table board design reflect the consistent concept of elite and create the steady but flexible business style. .

Meeting Desk

In the meeting rooms where your inspiration is sparked, the concise lines, elegant pattern and simple & plain decoration of GATE conference table will help keep every attendee focused on meeting and make thoughts clearer for the achievement of the next strategic objective.

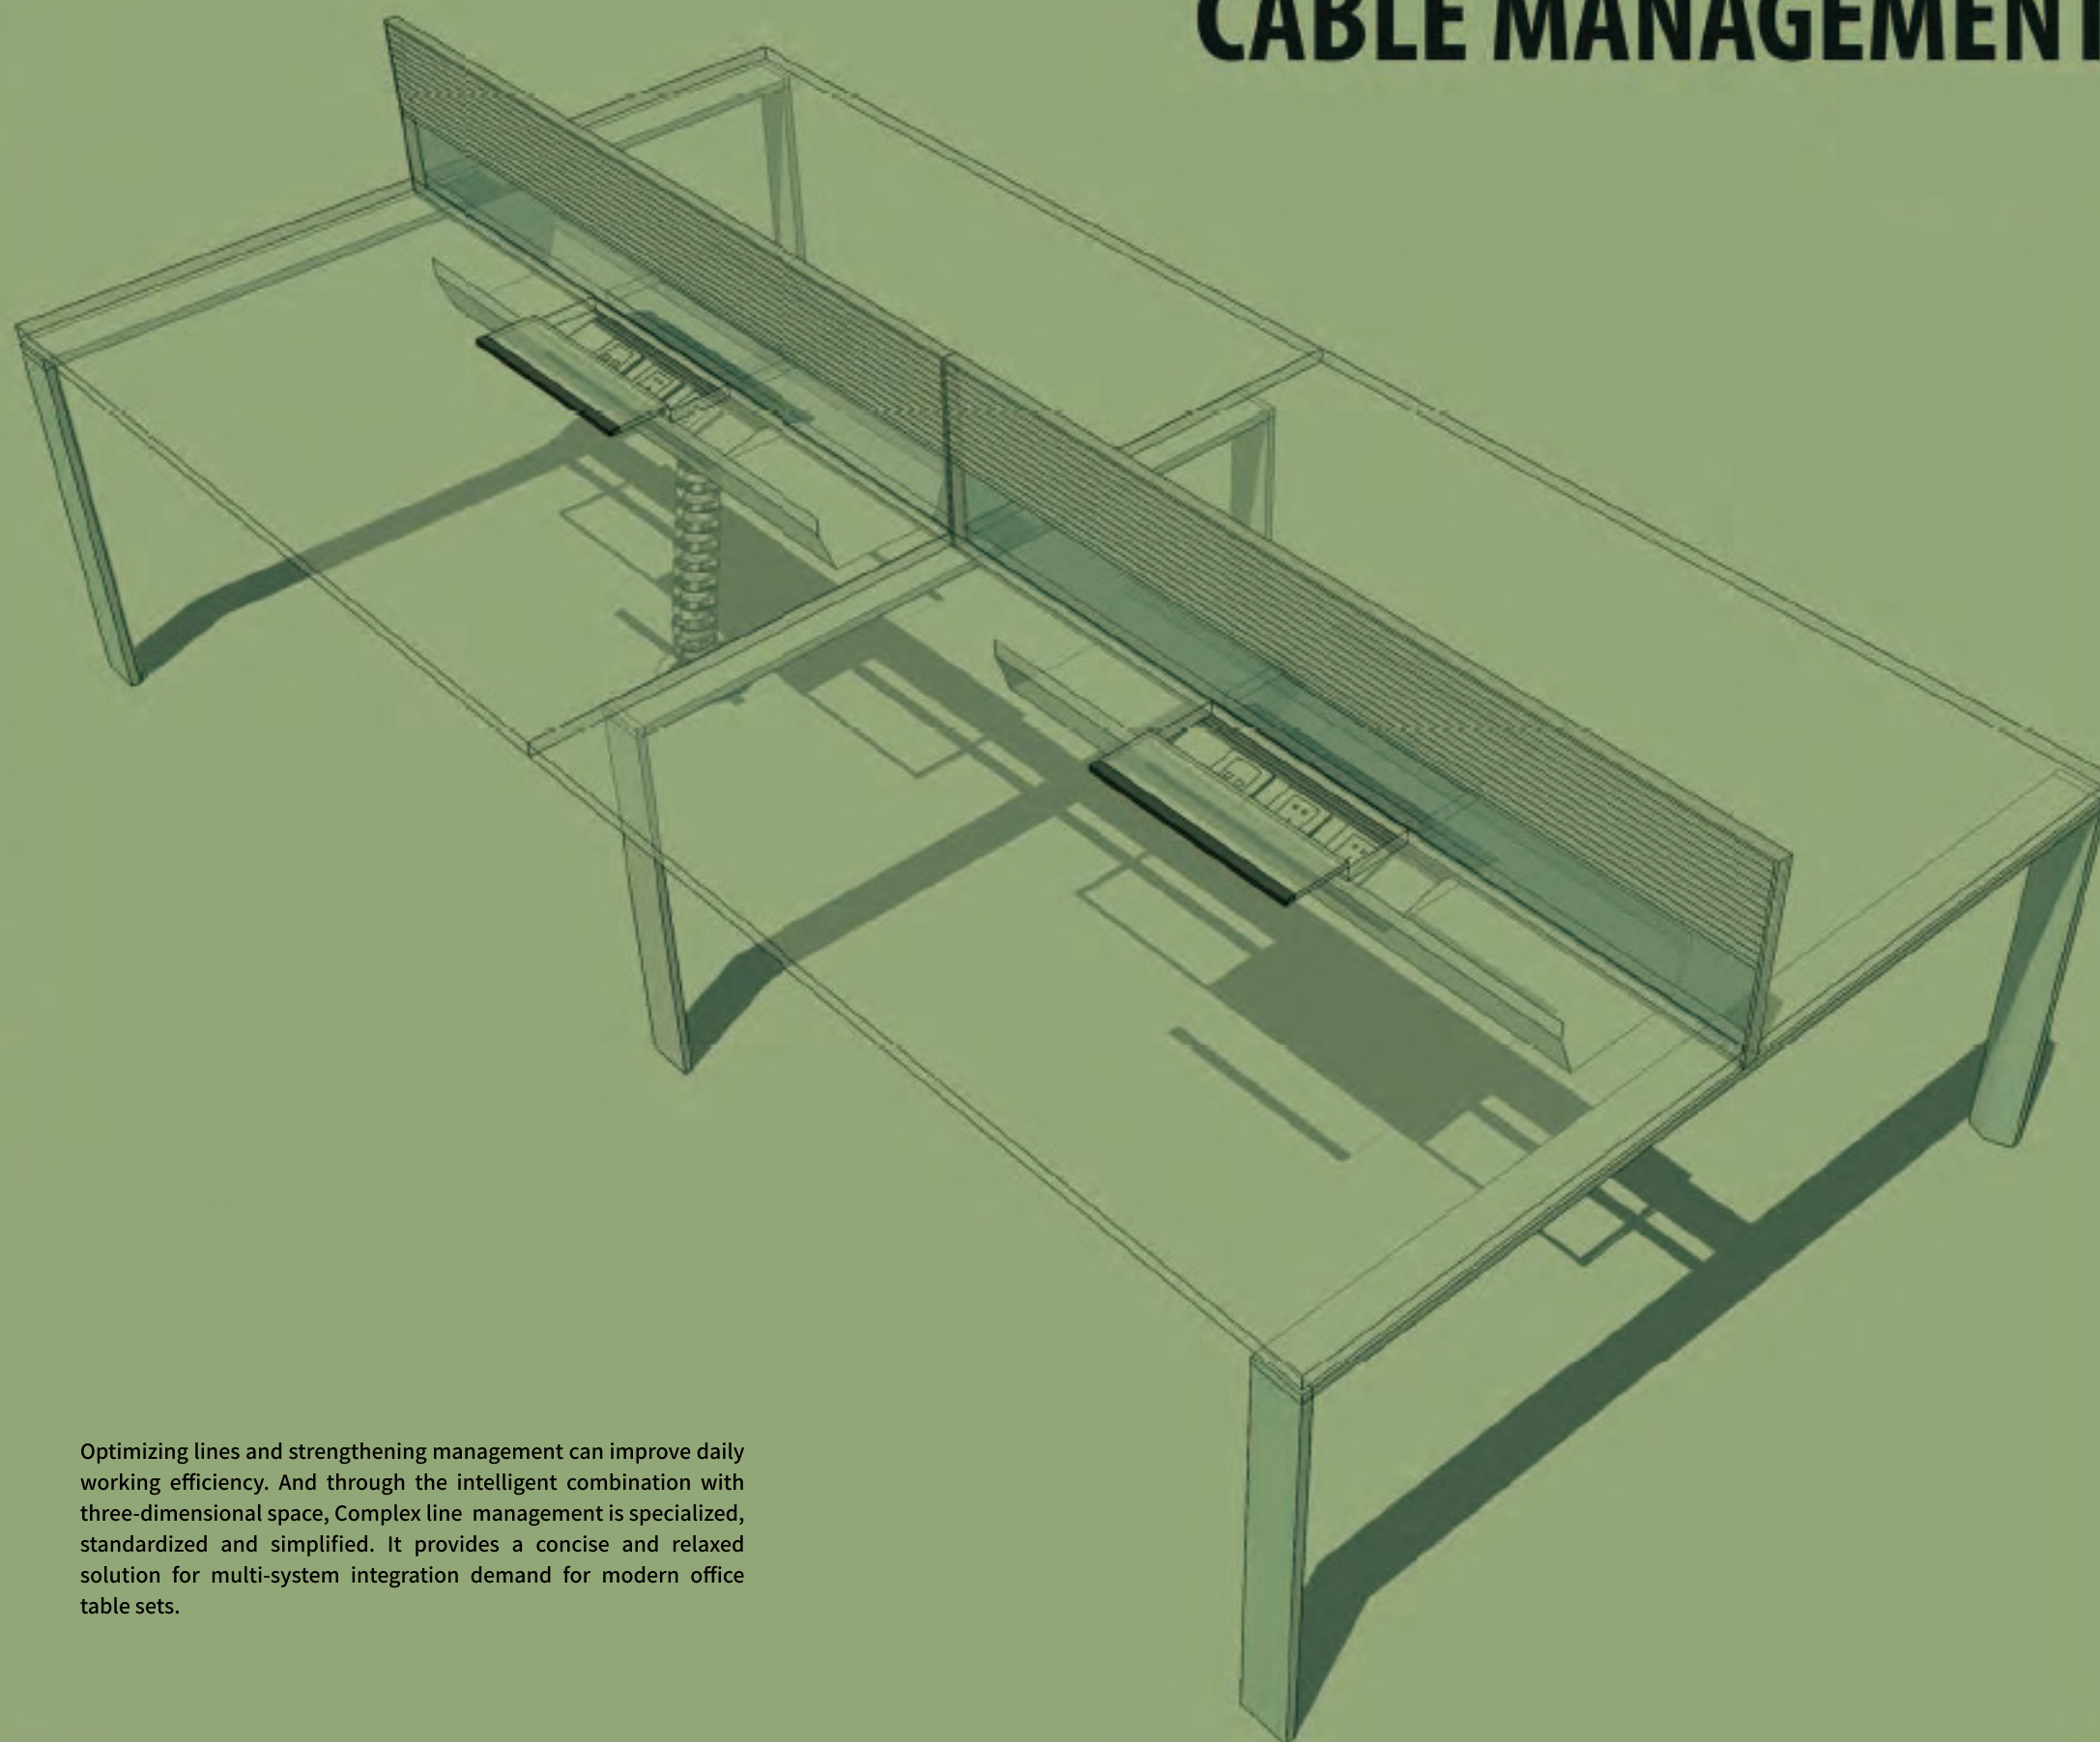

With regard to the domineering layout of GATE system, it continues to apply classic Indian rose chestnut color that represents maturity and steady feature, and cleverly integrates futuristic silver grey. Therefore, the overall tone is bold but unobtrusive. The metal flip cable box both embodies the spirit and cultural deposit of enterprise and reveals professional, delicate and confident business style.

meeting desk

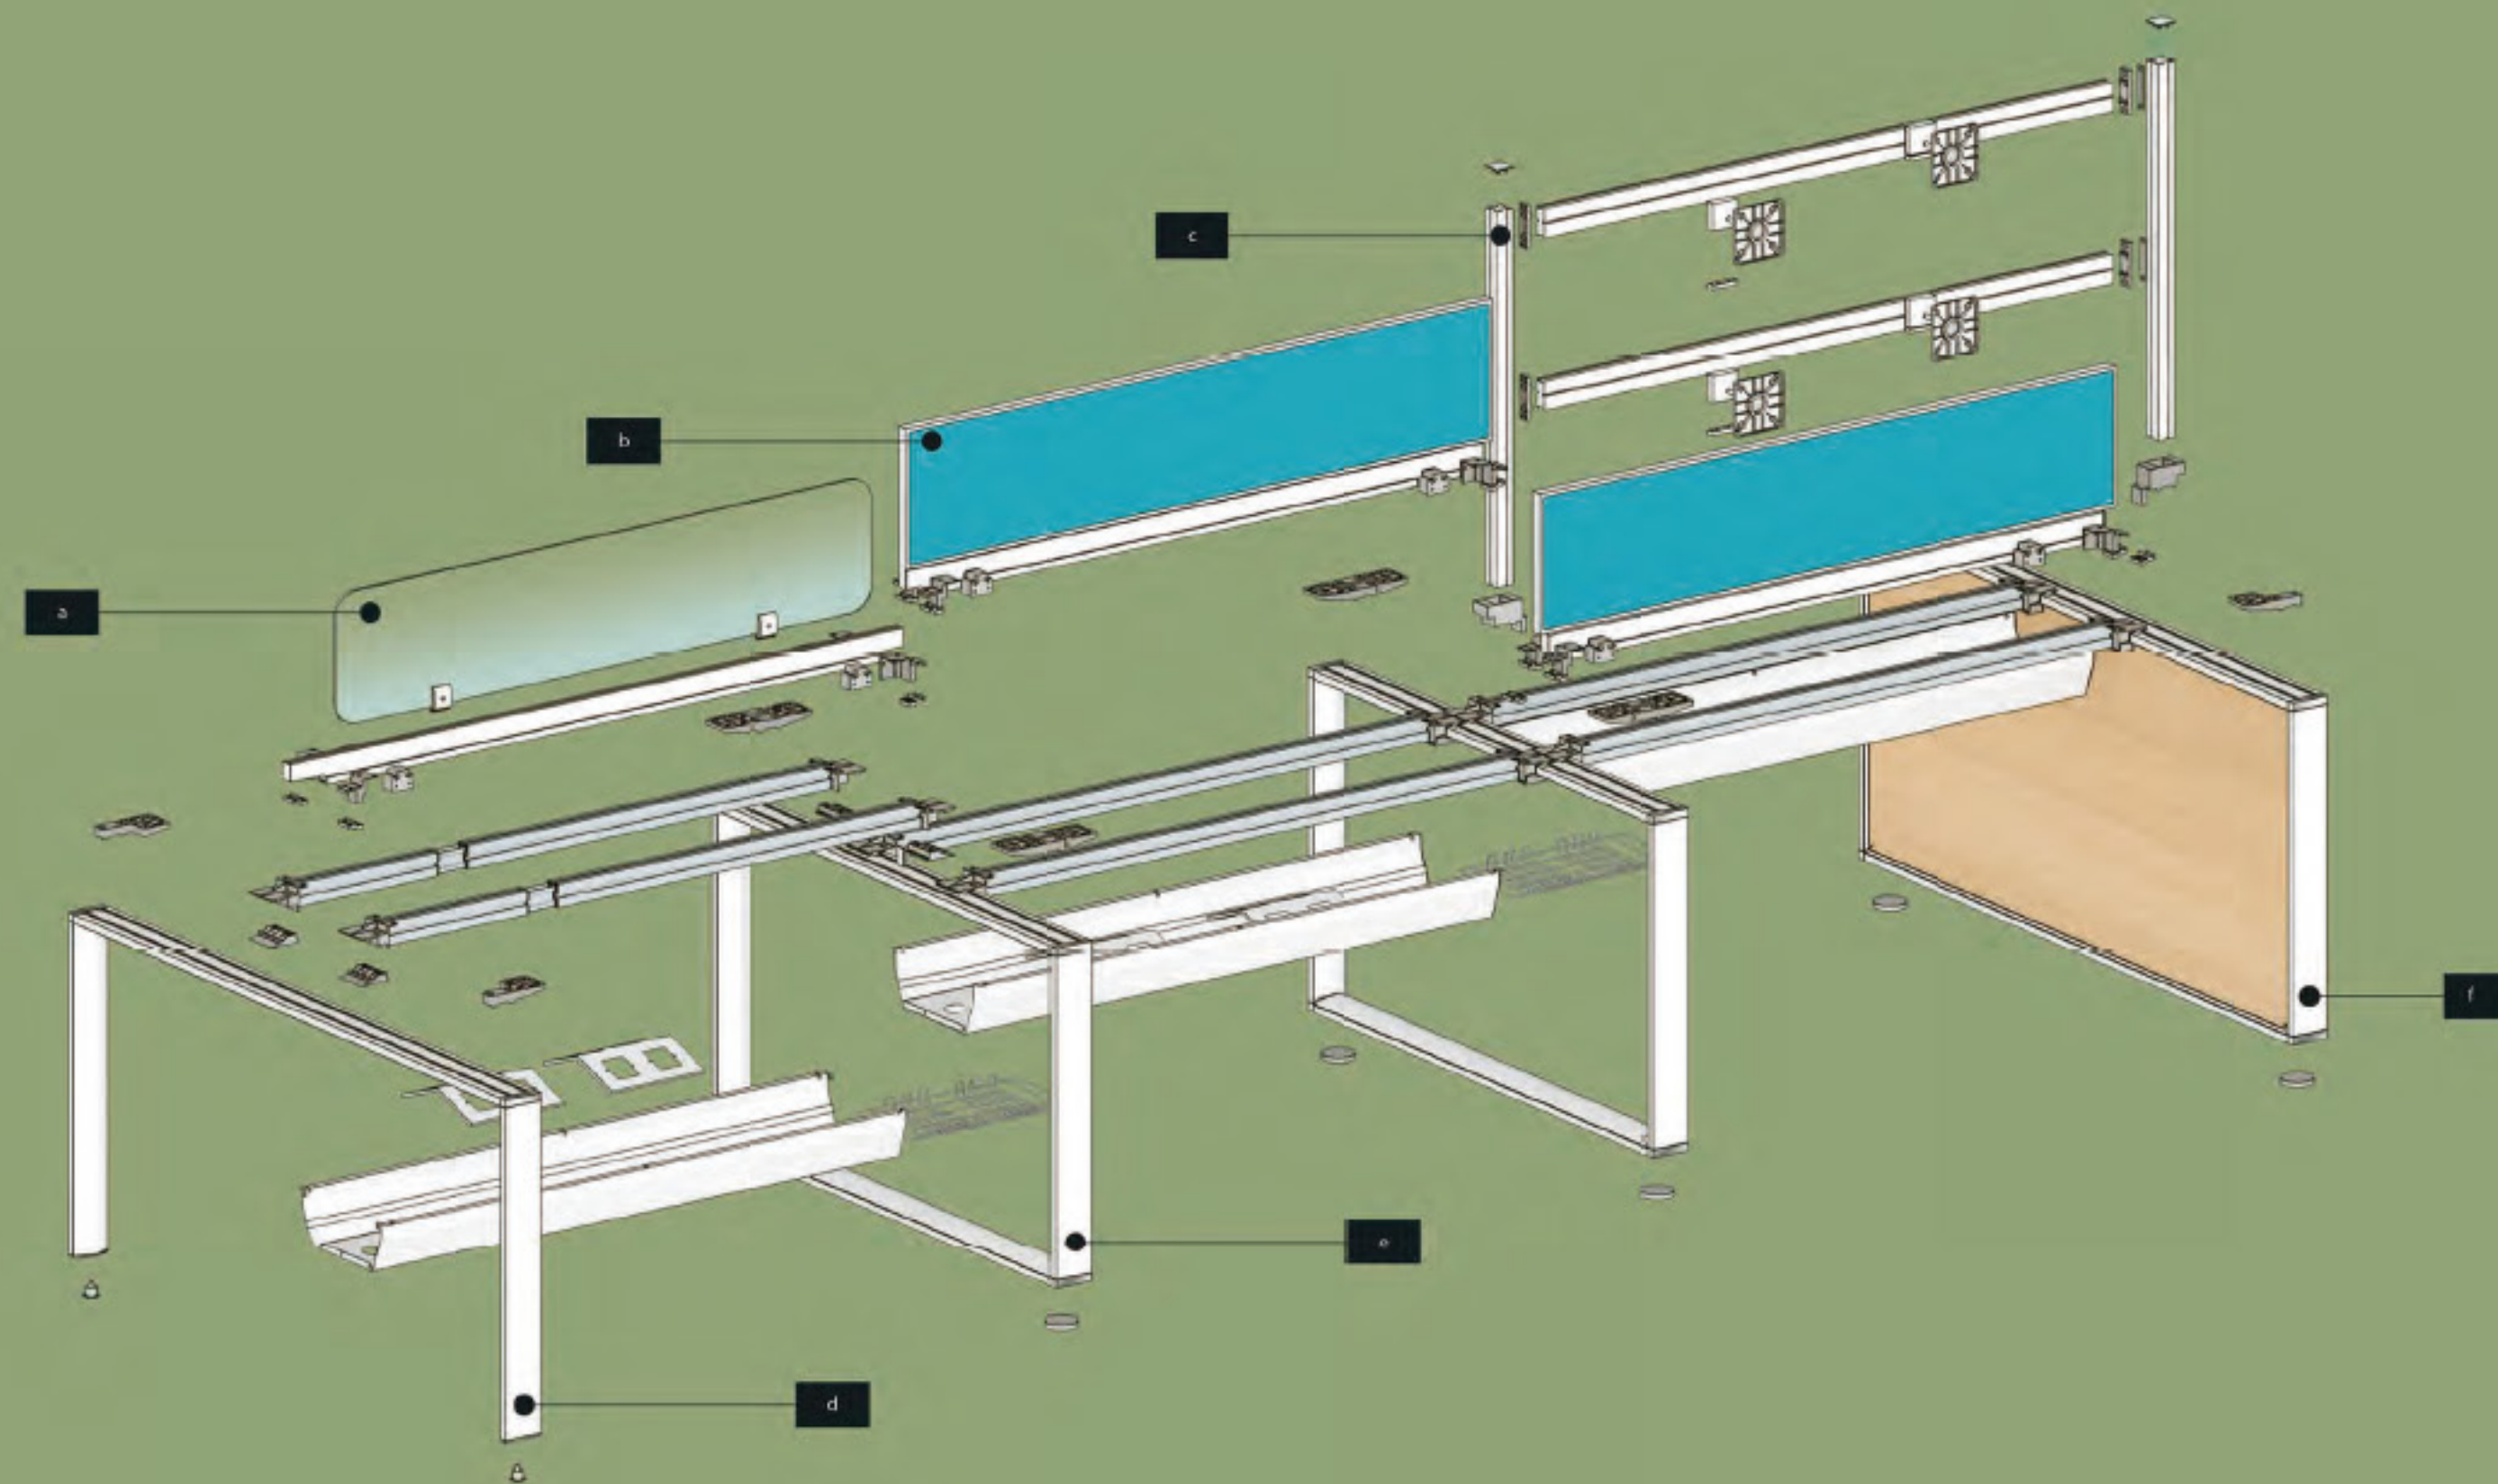

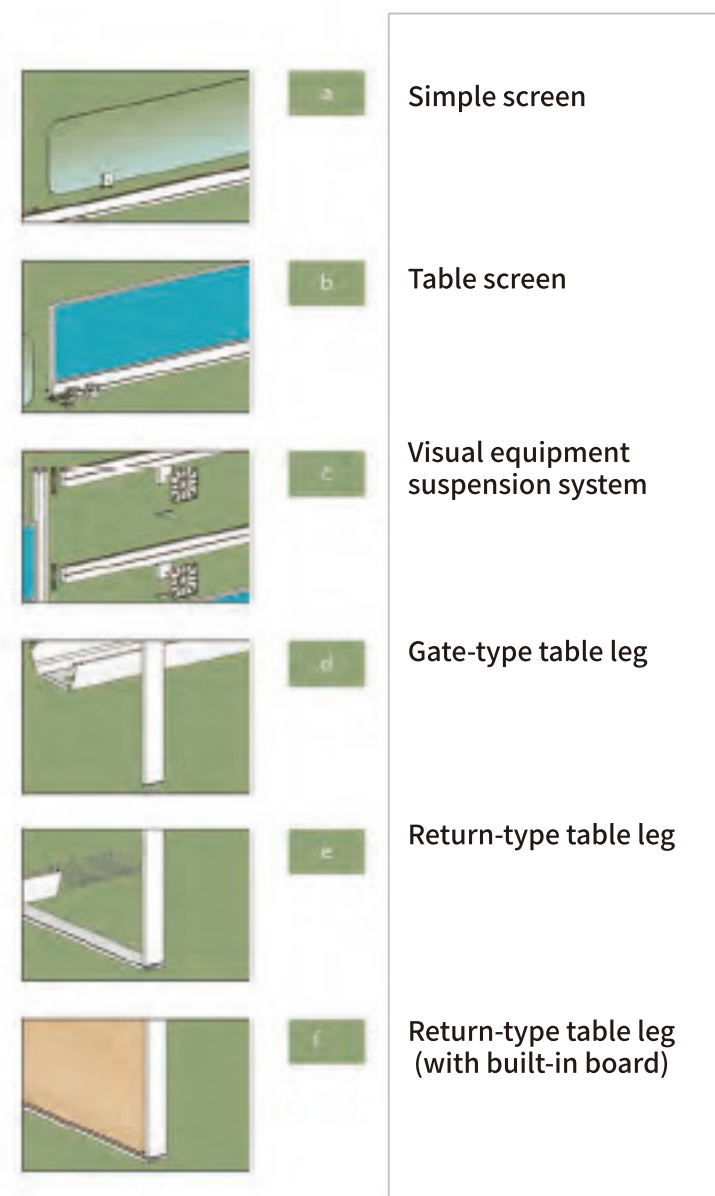

CABLE MANAGEMENT

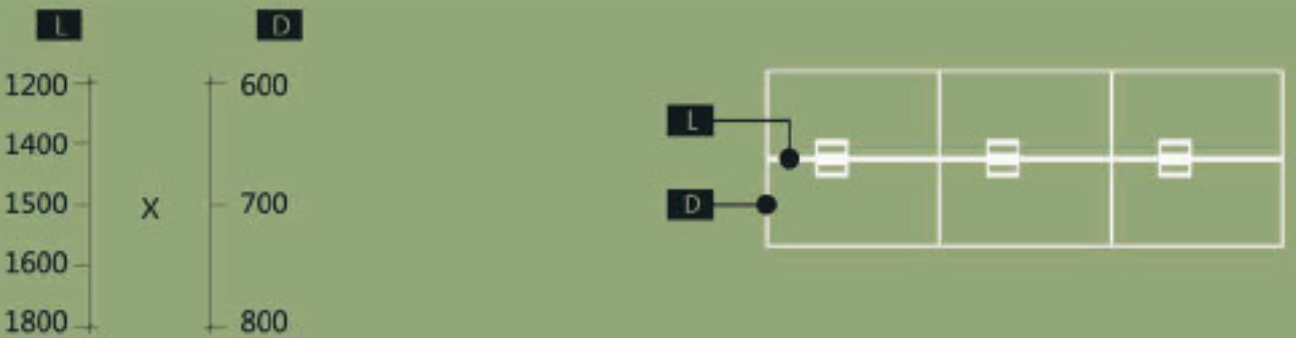

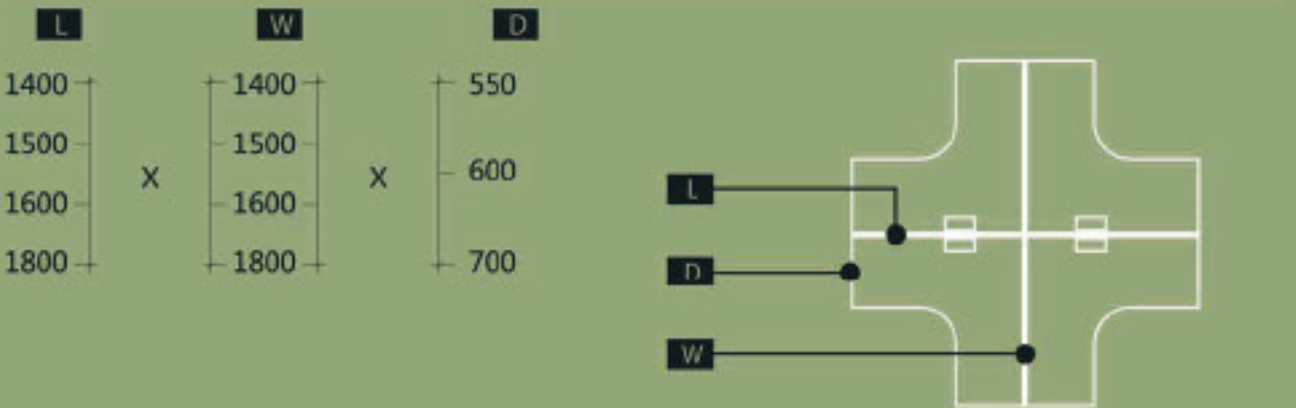

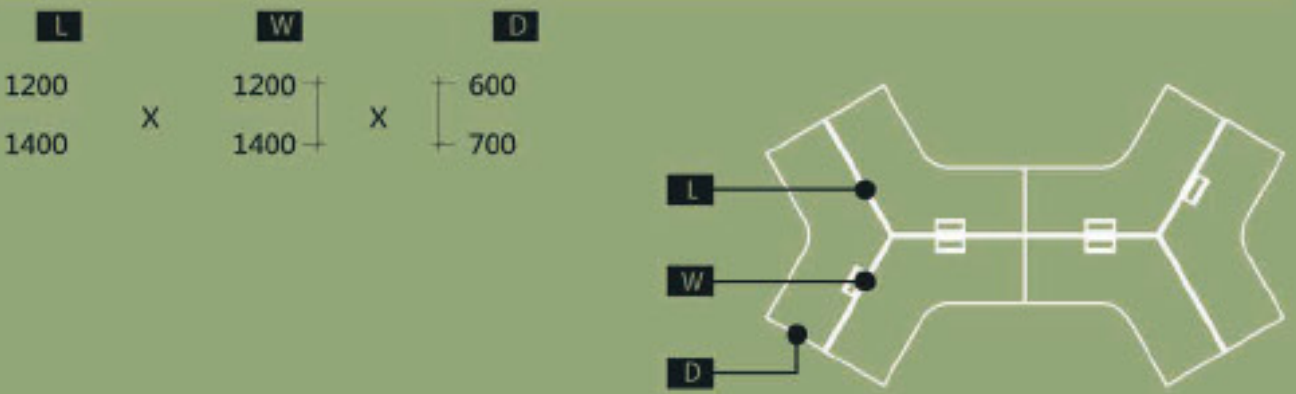

Optimizing lines and strengthening management can improve daily working efficiency. And through the intelligent combination with three-dimensional space, Complex line management is specialized, standardized and simplified. It provides a concise and relaxed solution for multi-system integration demand for modern office table sets.

Specification

Under the theme of exploring future, we continue to make breakthrough in style and function and strive to provide perfect service. The supporting base is firm and sturdy enough to carry more articles required. Considering the long-term development of enterprises, the table-set functions can be extended as needed. The system will provide perfect resource integration solution for the era of information explosion, so the customers can enjoy all round information without leaving the offices.

Optional size of table board size

Final conclusion: extraordinary creativity originates from tradition.The perfect combination of precision workmanship and classic and brief styles as well as the endless pursuit of details accomplish the elaborate works of the times.
