DYNA 2 TRIGGER INSPIRATION

Iterative design for changing work forms with DYNA2.
The type changes constantly, the inspiration never stops.

NOISE REDUCTION OPTIMIZATION

Enhanced electric table leg strength makes it possible to stand without interference. A cup full of water will not overflow under table movement, thanks to high degree of response synchronization.

Almost inaudible

Lifting decibels

Normal conversation

Upper limit of comfort
for human hearing

Switching between sitting and standing and between independent work and collaborative work are vivid interpretations of office convenience and mobility.

SMART SENSING, REBOUND WHEN BLOCKED

After pressing UP/DOWN key, you do not have to watch the UP/DOWN process. It will bounce back against resistance. This could avoid the risks of squeezing limbs or side cabinet.

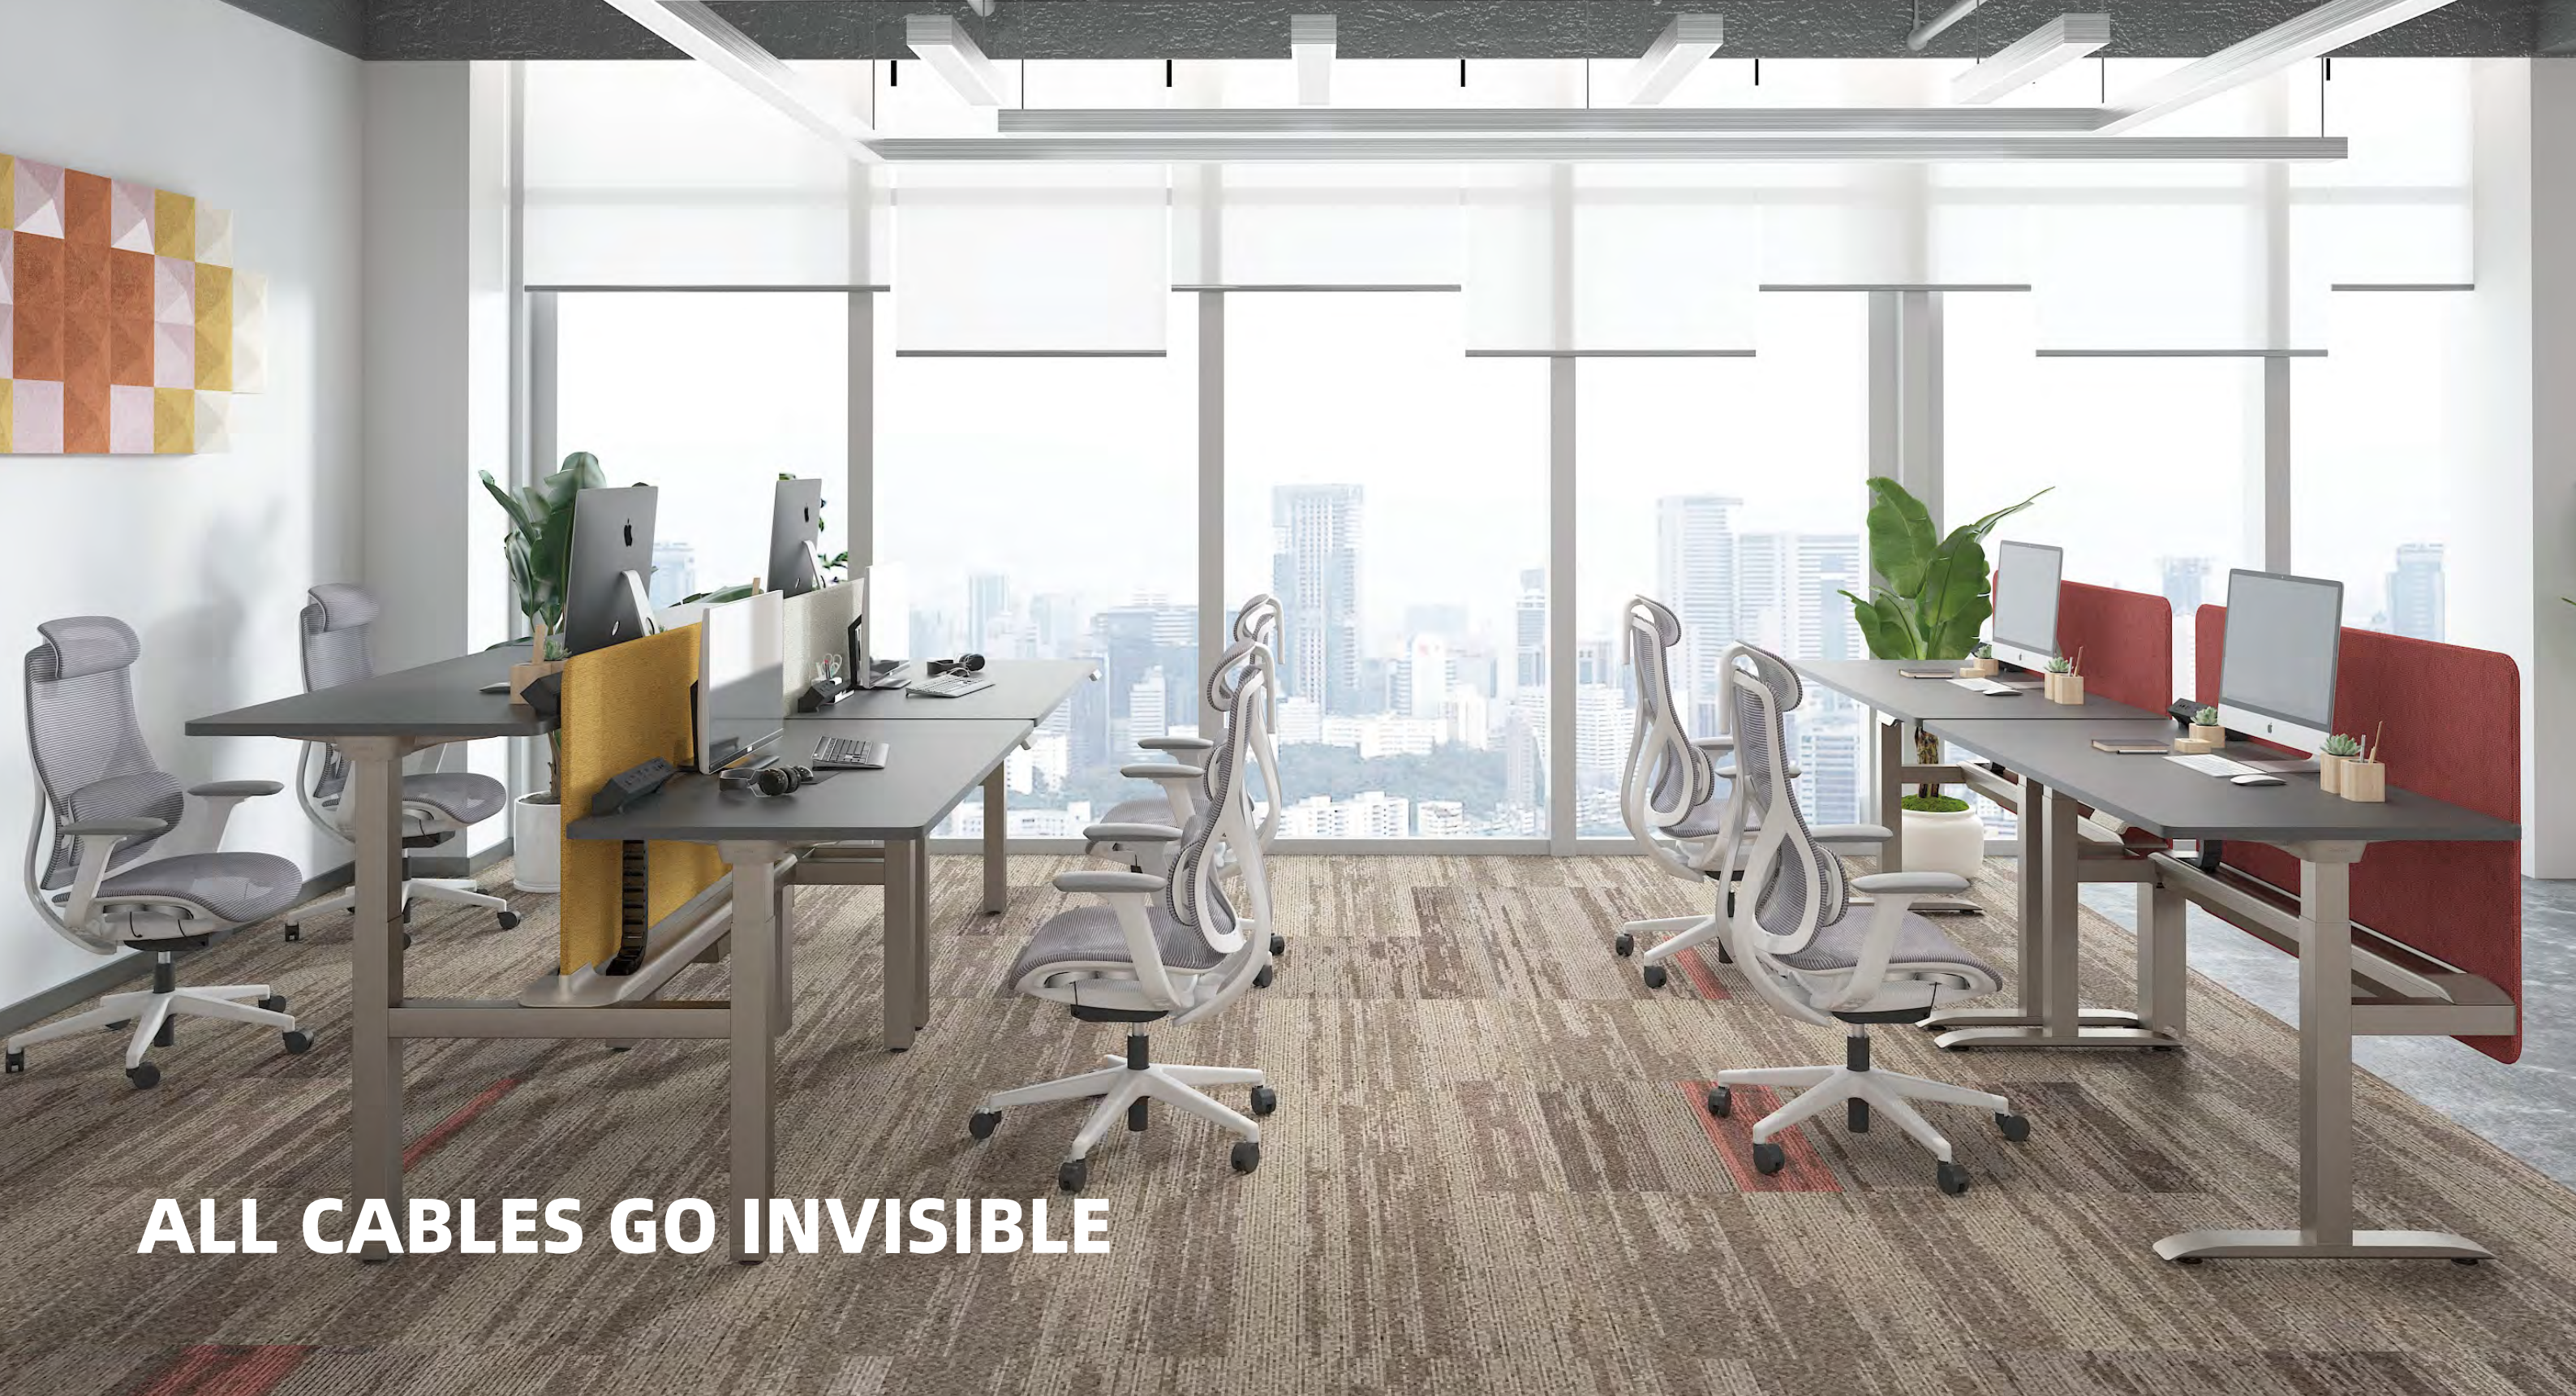

UP AND DOWN WITH ONE CLICK

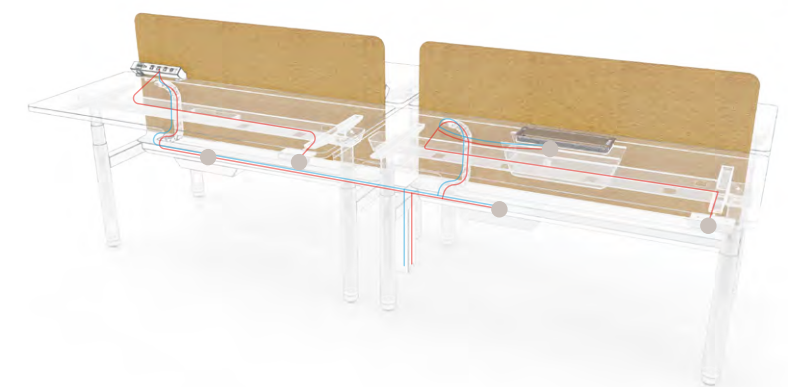

Easy operation with intuitive key display. Optional hand controllers meet the needs of different habits.

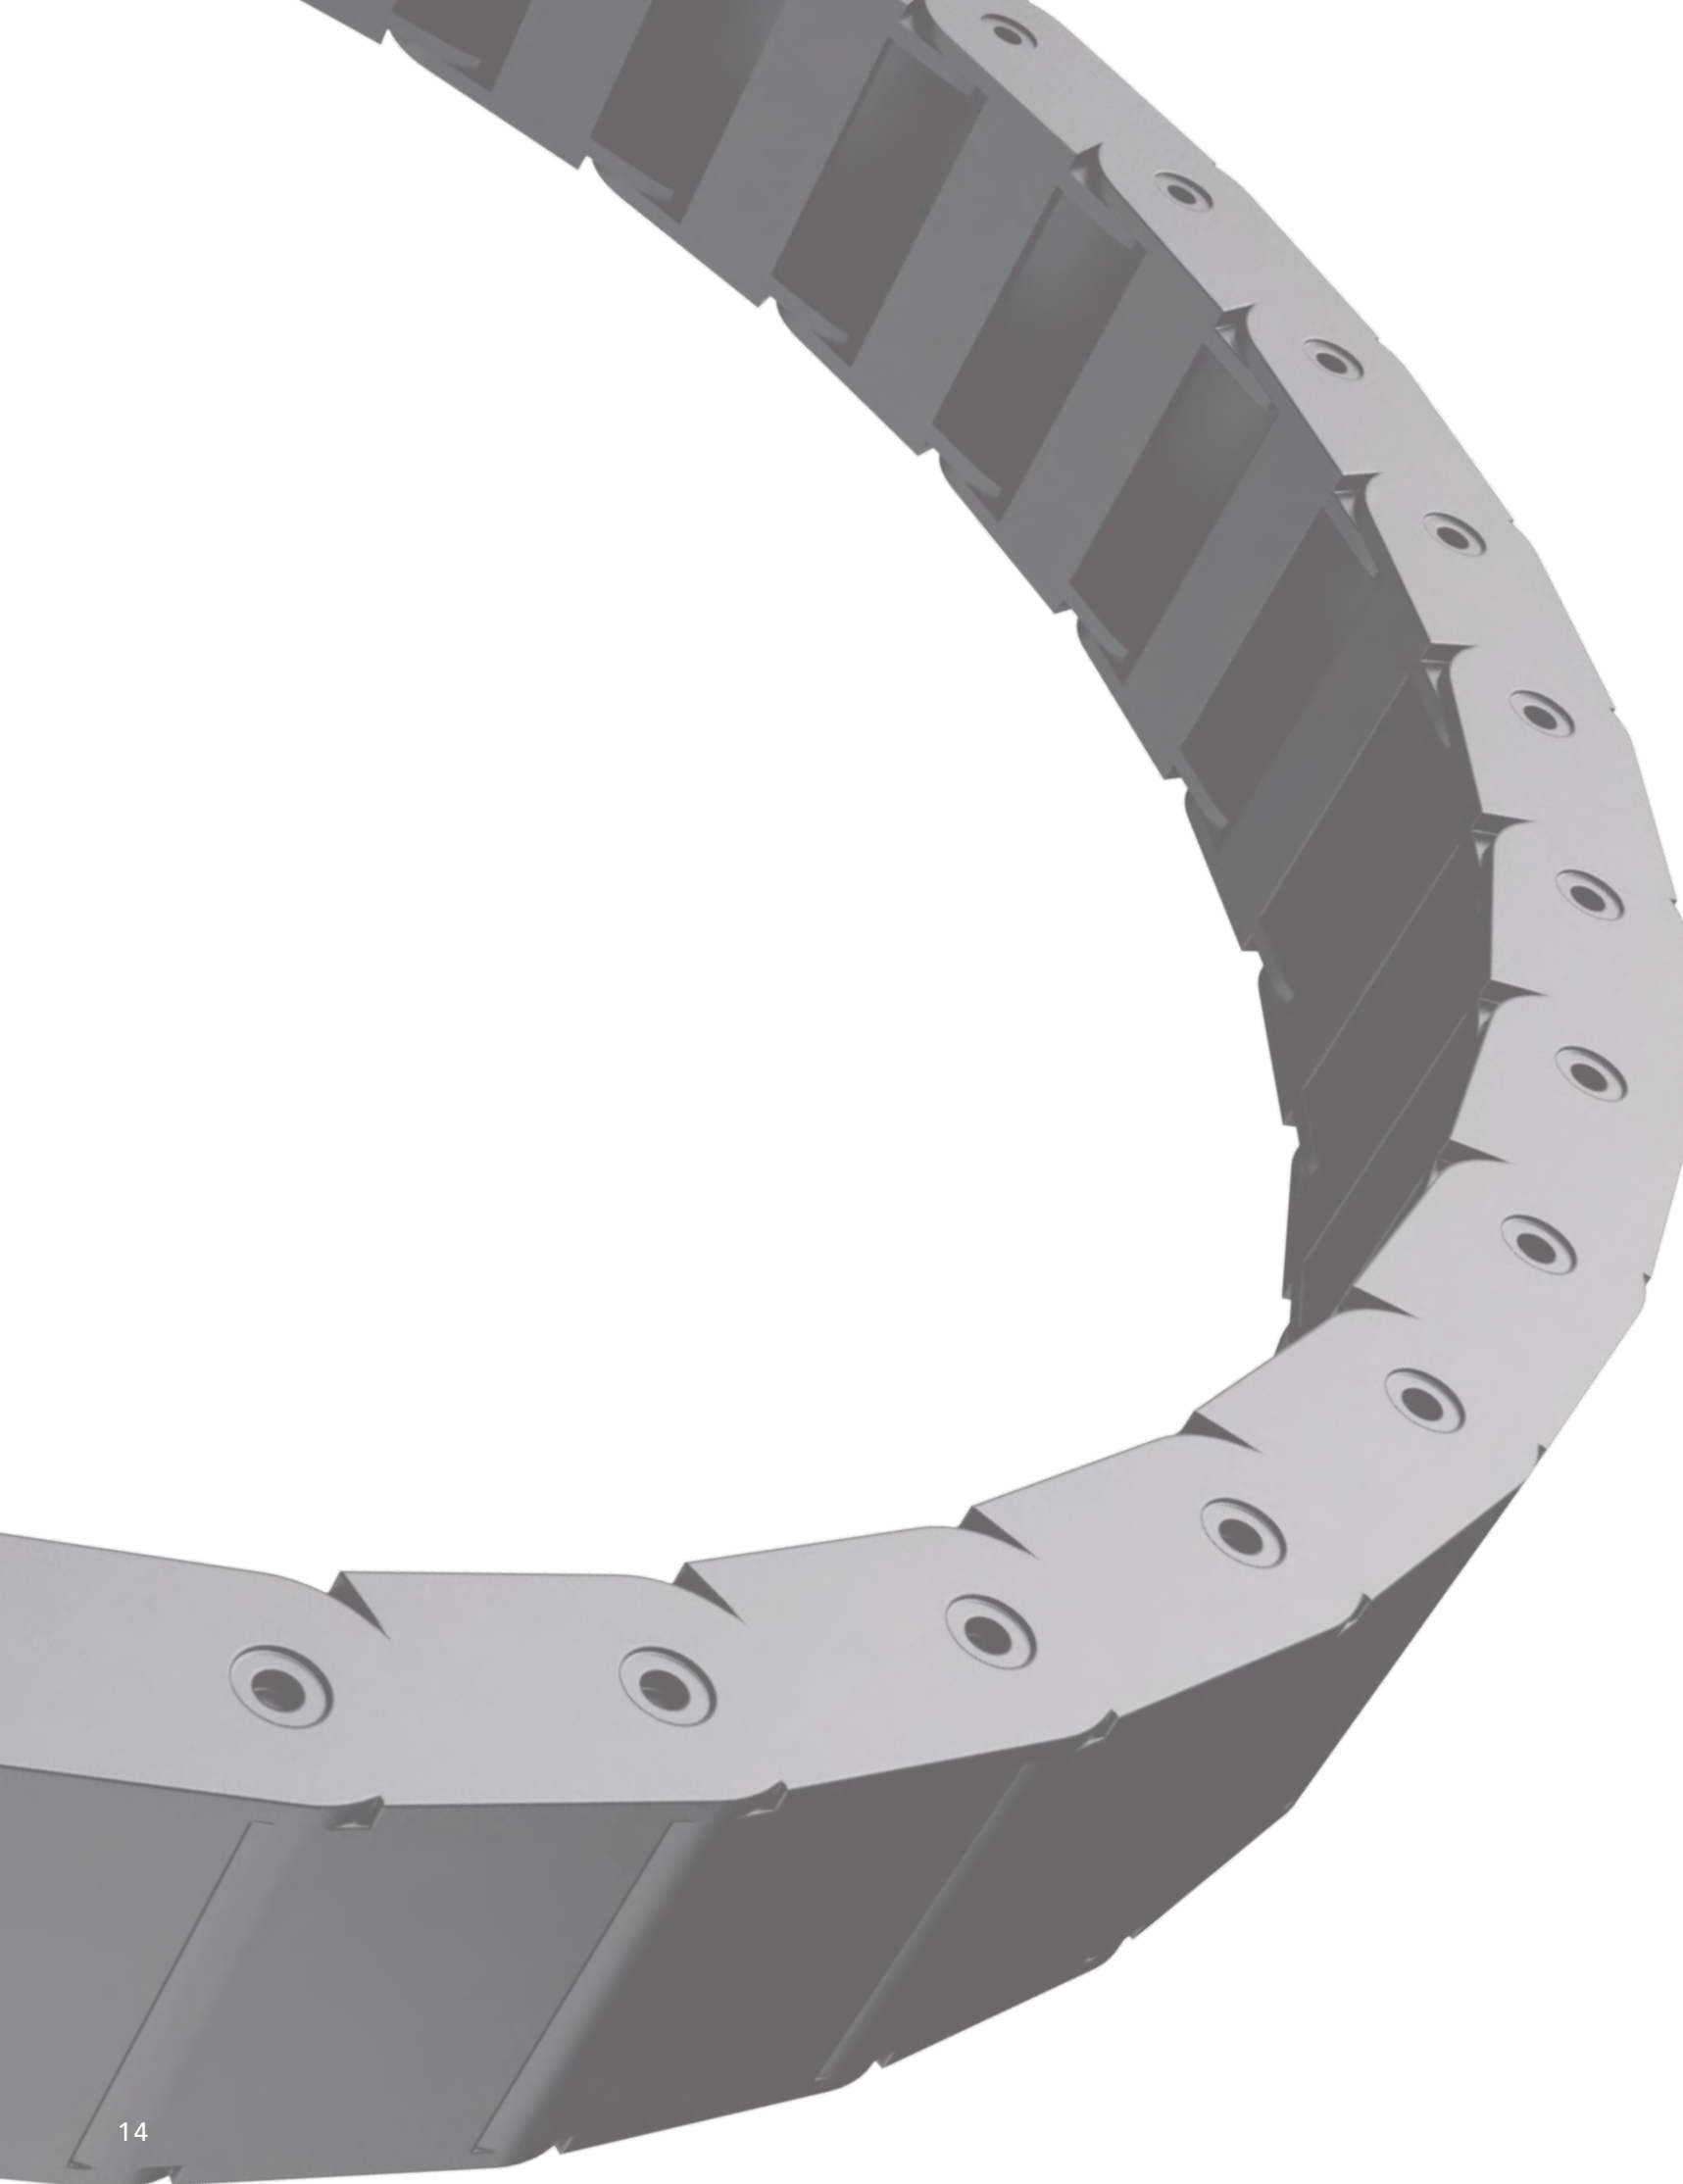

ALL CABLES GO INVISIBLE

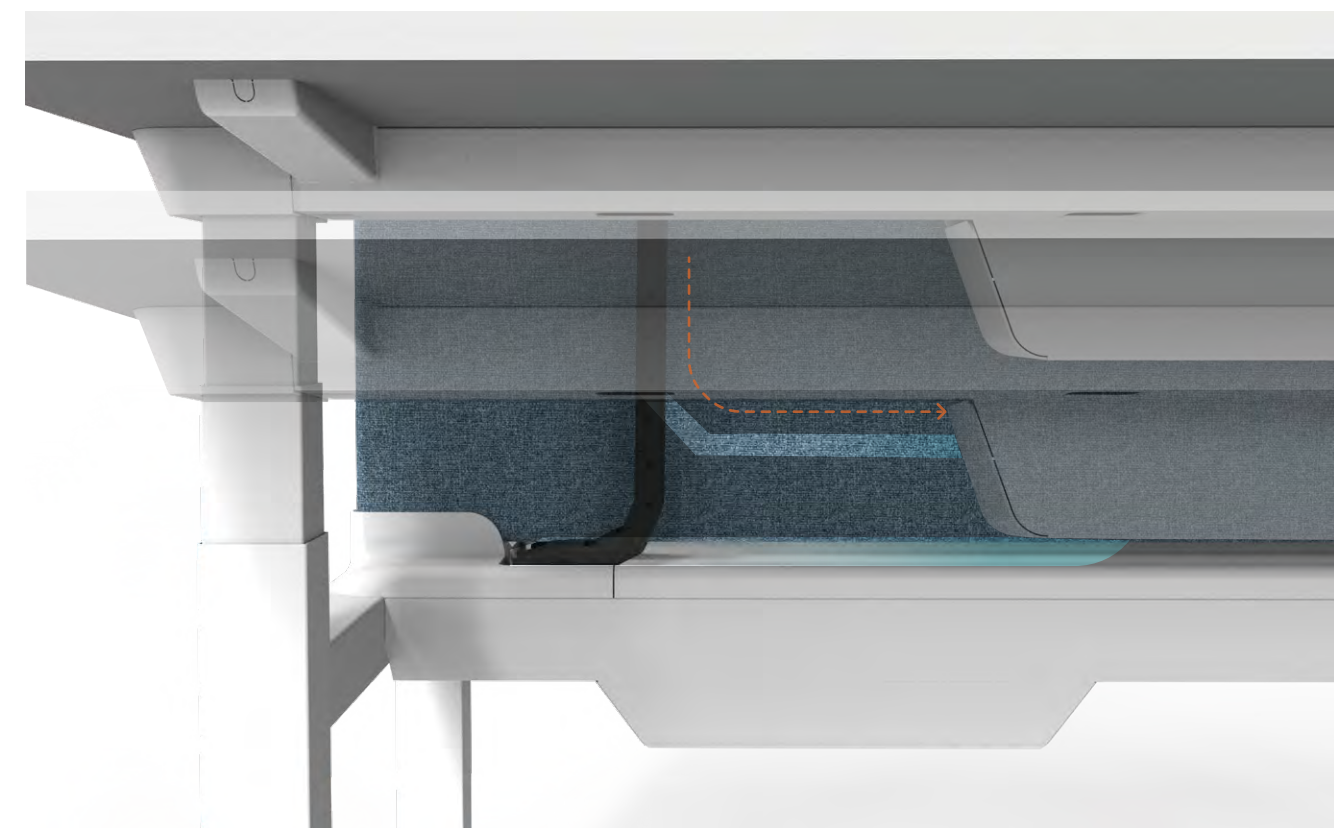

Hidden circuit design. Use the channel for orderly wiring, which can reduce interference in the office and improve work efficiency.

ROUND-BREAKING DESIGN, HORIZONTAL CABLE CHAIN

Change vertical cable chain to horizontal trough to solve the problems about human-machine interference in cable chains visually and in use experience. Decent and practical!

Not limited by the traditional Manager's desk. Healthier, freer and better work style and experience.

SOFT FEEL, FINGER- PRINT RESISTANT DESKTOP SHEETS

A smooth skin feel desktop comes from original German material and formula. In addition to super matte appearance, fingerprint-resistant desktop effect also reduces the trouble of wiping.
