Wall Height Below 2700mm:

- Heights are available in increments of 100mm.
- Any space less than 100mm shall be filled with a filler panel.

Wall Height Above 2700mm:

- Priority is given to the use of filler panels.
- If filler panels do not suffice, an overlay configuration of top-mounted and bottom-mounted cabinets is employed.

Custom Wall Width:

- Widths are available in increments of 50mm.

Structural Configuration:

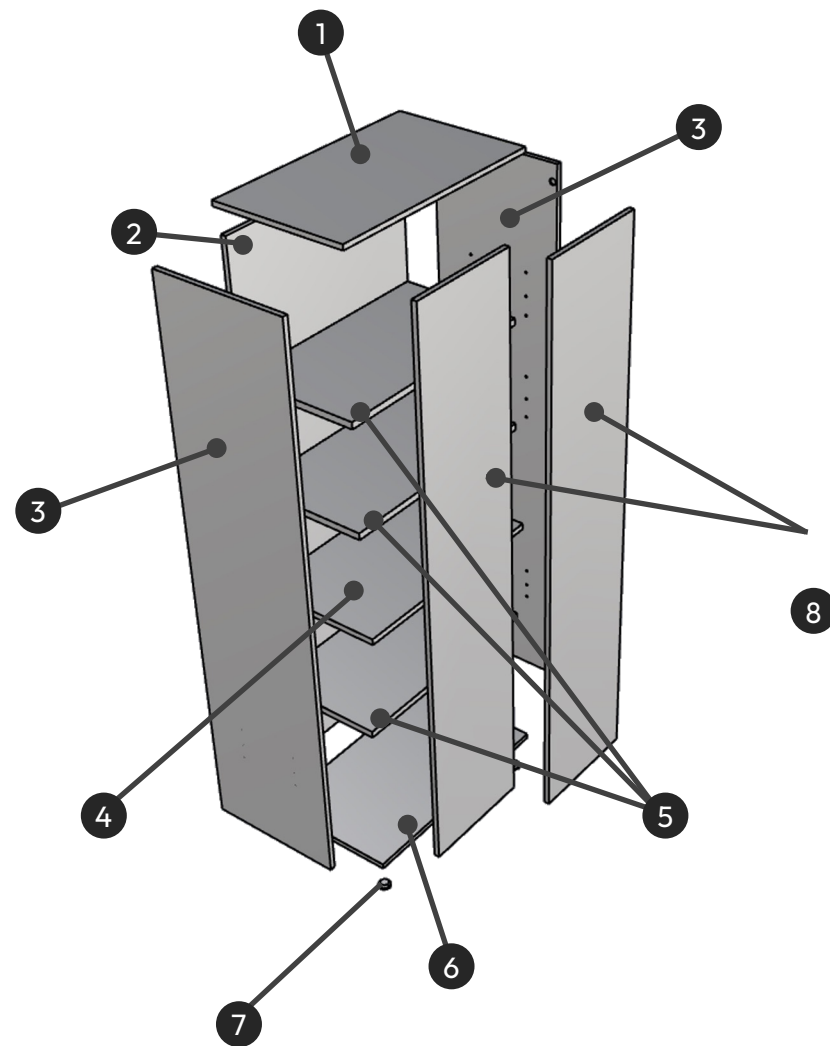

- 1H: No shelves
- 2H: One adjustable shelf
- 3H: Two adjustable shelves
- 4H: Two adjustable shelves and one fixed shelf
- 5H: Three adjustable shelves and one fixed shelf
- 6H: Four adjustable shelves and one fixed shelf

*Note: Open front shelving units do not include adjustable shelves.

*Note: A minimum clearance of 20mm must be maintained on both sides and at the top.

- MFC cabinet bodies can be customized in standard colors for heights up to and including 5H. For heights above 5H, color customization requires additional consultation.
- Board aluminum frame glass doors do not accept custom sizes or colors.
- Wooden door panels are not supported for heights of 6H and above.

Product Description

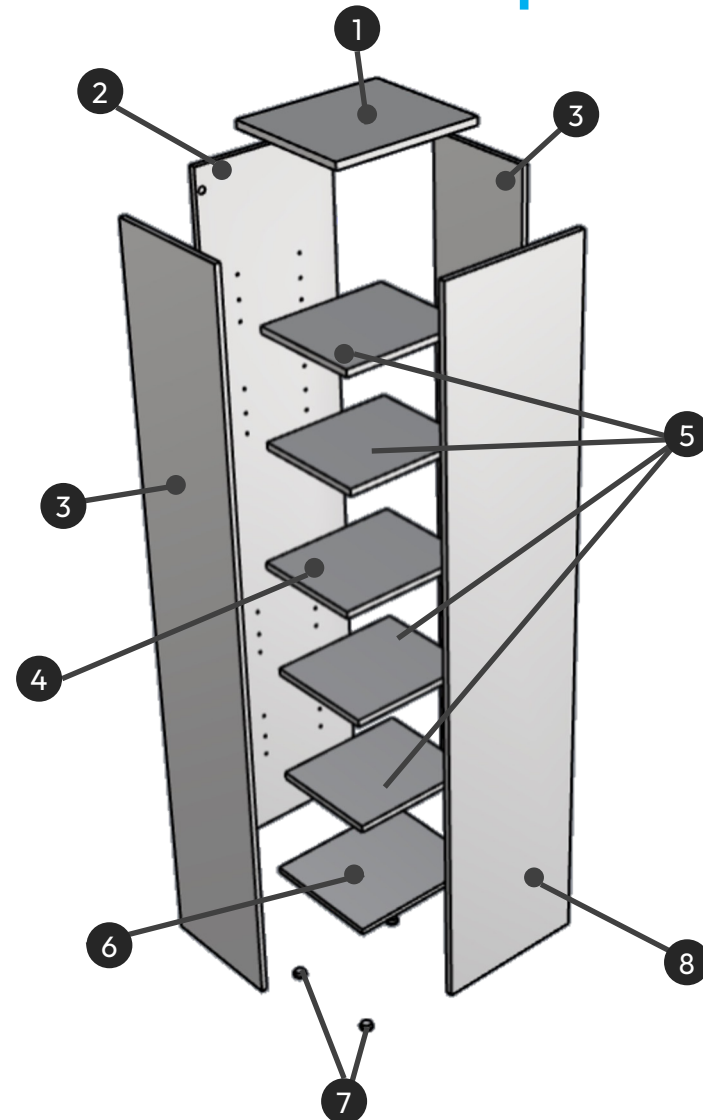

Panel Cabinet (Double Doors)

Specifications:

- ① Top Panel: The top panel is 18mm thick and connects to the back panel and side panels using three-in-one connectors.
- ② Back Panel: The back panel is 18mm thick.
- ③ Side Panels: The side panels are 18mm thick and feature connections for both adjustable and fixed shelves.
- ④ Fixed Shelf: The fixed shelf is 25mm thick.
- ⑤ Adjustable Shelf: The adjustable shelf is 25mm thick.
- ⑥ Bottom Panel: The bottom panel is 18mm thick and comes with IF adjustable feet installed at the bottom, which can be adjusted from 0 to 10mm in height.
- ⑦ IF Adjustable Feet: The cabinet is equipped with IF adjustable feet at the bottom, providing an adjustable height range of 0 to 10mm.
- ⑧ Door Panels: The door panels are 18mm thick. Door opening mechanisms include a rebound opening system with installed rebounders; options for full-length aluminum handles are available but cannot be installed on the left door of double-door cabinets; small handles are also optional; for 2H and 3H sizes, 45° mitered handles are available as an option.

Product Description

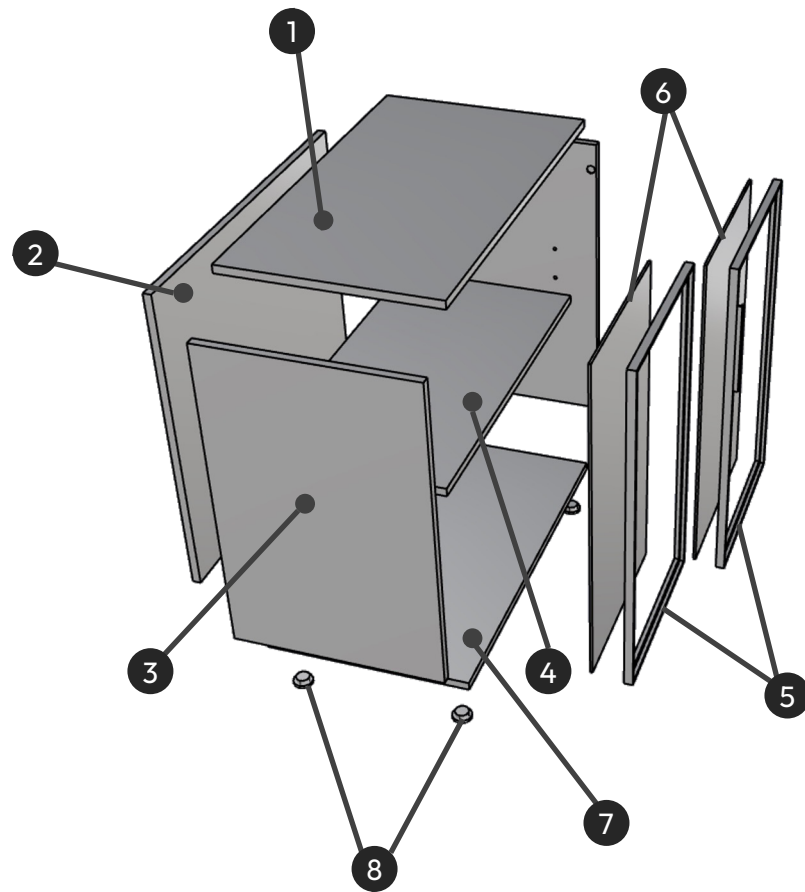

Panel Cabinet (Single Door)

Specifications:

- ① Top Panel: The top panel is 18mm thick and connects to the back panel and side panels using three-in-one connectors.
- ② Back Panel: The back panel is 18mm thick.
- ③ Side Panels: The side panels are 18mm thick and feature connections for both adjustable shelves and fixed shelves.
- ④ Fixed Shelf: The fixed shelf is 25mm thick.
- ⑤ Adjustable Shelf: The adjustable shelf is 25mm thick.
- ⑥ Bottom Panel: The bottom panel is 18mm thick and comes with IF adjustable feet installed at the bottom.
- ⑦ IF Adjustable Feet: The IF adjustable feet, located at the bottom of the cabinet, can be adjusted from 0 to 10mm in height.
- ⑧ Door Panels: The door panels are 18mm thick. Door opening mechanisms include a rebound opening system with installed rebounders. Optional handle types include:
 - Full-length aluminum handles (not installable on the left door of double-door cabinets)
 - Small handles
 - For 2H and 3H sizes, 45° mitered handles are also available.

Product Description

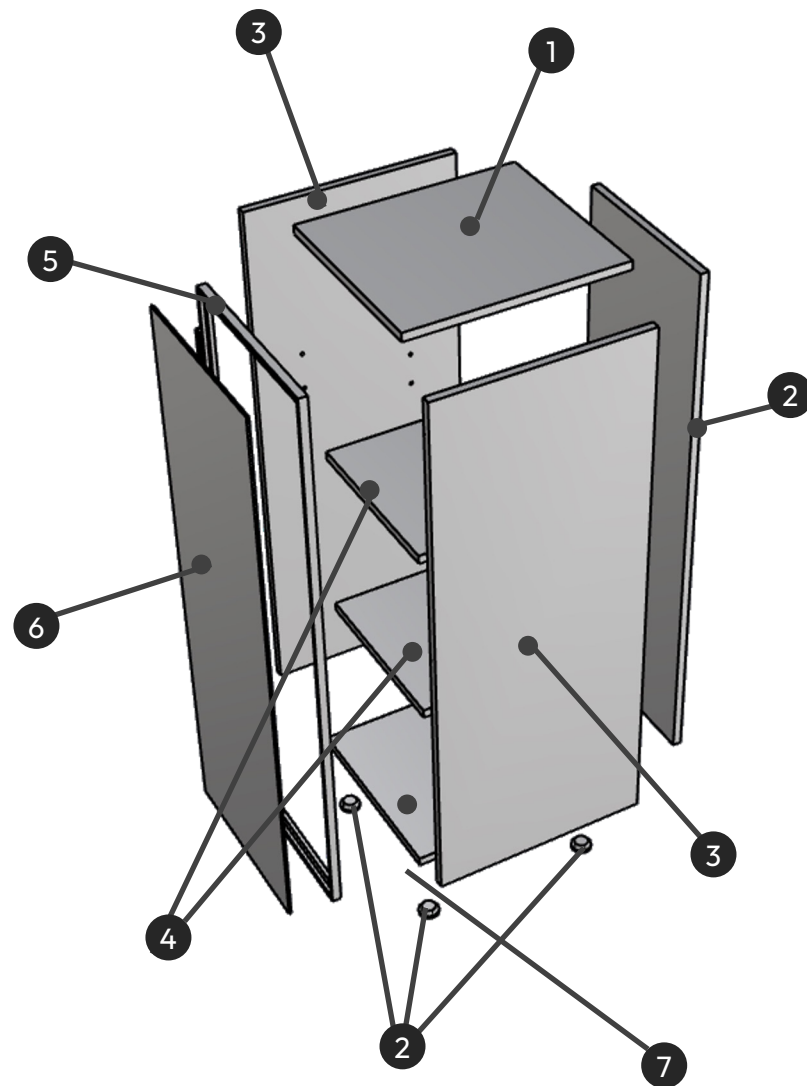

Aluminum Frame Door Cabinet (Double Doors)

Specifications:

- ① Top Panel: The top panel is 18mm thick and connects to the back panel and side panels using three-in-one connectors.
- ② Back Panel: The back panel is 18mm thick.
- ③ Side Panels: The side panels are 18mm thick and feature connections for both adjustable shelves and fixed shelves.
- ④ Shelves: Fixed shelves and adjustable shelves are both 25mm thick.
- ⑤ Aluminum Frame Door: Equipped with handles.
- ⑥ Glass Door Panels: Glass door panels are inset within the aluminum frame doors.
- ⑦ Bottom Panel: The bottom panel is 18mm thick and connects to IF adjustable feet at the bottom.
- ⑧ IF Adjustable Feet: Located at the bottom of the cabinet, the IF adjustable feet can be adjusted from 0 to 10mm in height.

Product Description

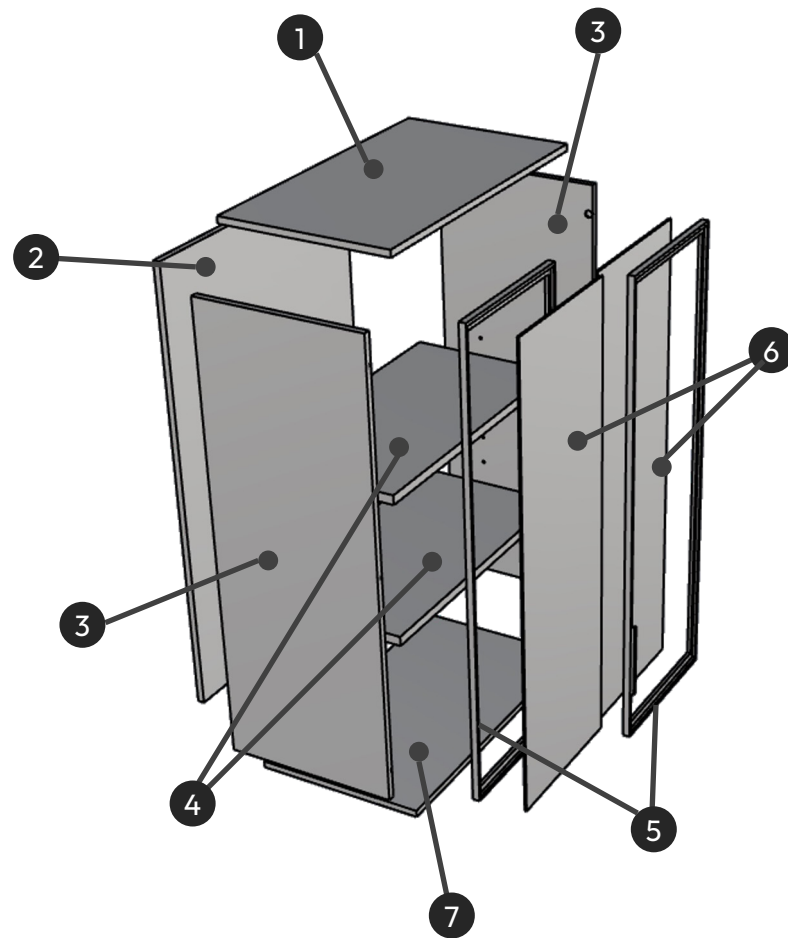

Aluminum Frame Door Cabinet (Single Door)

Specifications:

- ① Top Panel: The top panel has a thickness specification of 18mm and is connected to the back panel and side panels via three-in-one connectors.
- ② Back Panel: The back panel has a thickness specification of 18mm.
- ③ Side Panels: The side panels have a thickness specification of 18mm and are equipped with connections for both adjustable and fixed shelves.
- ④ Shelves: Both the fixed shelves and adjustable shelves have a thickness specification of 25mm.
- ⑤ Aluminum Door Frame: Comes with a handle.
- ⑥ Glass Door Panel: Inset within the aluminum door frame.
- ⑦ Bottom Panel: The bottom panel has a thickness specification of 18mm and is connected to IF leveling feet at its underside.
- ⑧ IF Leveling Feet: Attached to the bottom of the cabinet, the IF leveling feet have an adjustable height range of 0-10mm.

Product Description

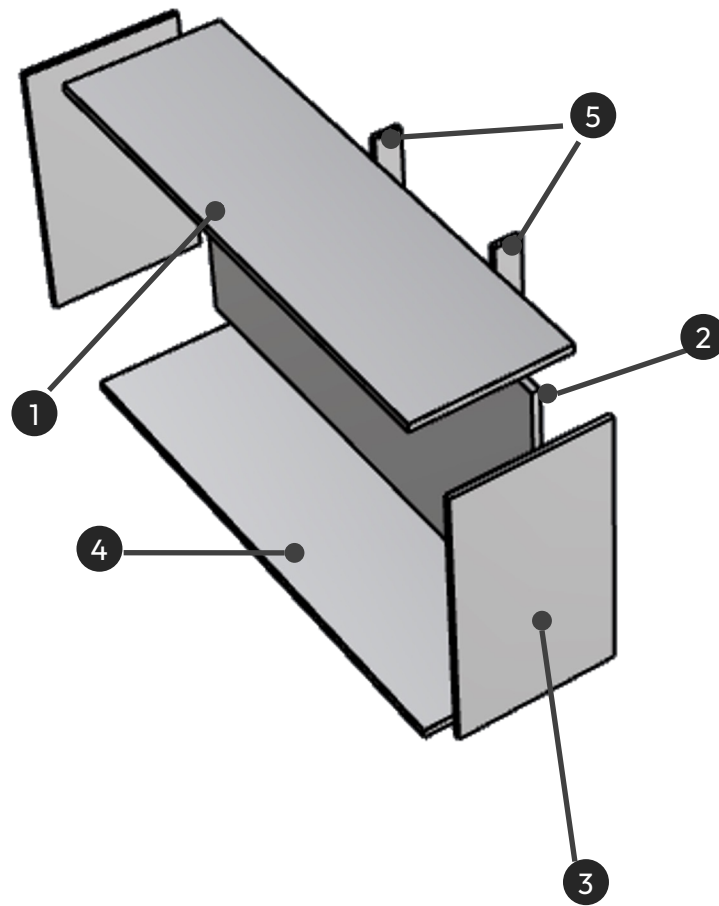

Top-Mounted Aluminum Framed Door Cabinet

Specifications:

- ① Top Panel: 18mm thick, connected to the back and side panels using three-in-one connectors.
- ② Back Panel: 18mm thick.
- ③ Side Panels: 18mm thick, featuring connections for both adjustable and fixed shelves.
- ④ Shelves: Both fixed and adjustable shelves are 25mm thick.
- ⑤ Aluminum Door Frame: Equipped with a handle.
- ⑥ Glass Door Panel: Inset within the aluminum door frame.
- ⑦ Bottom Panel: 18mm thick.

Product Description

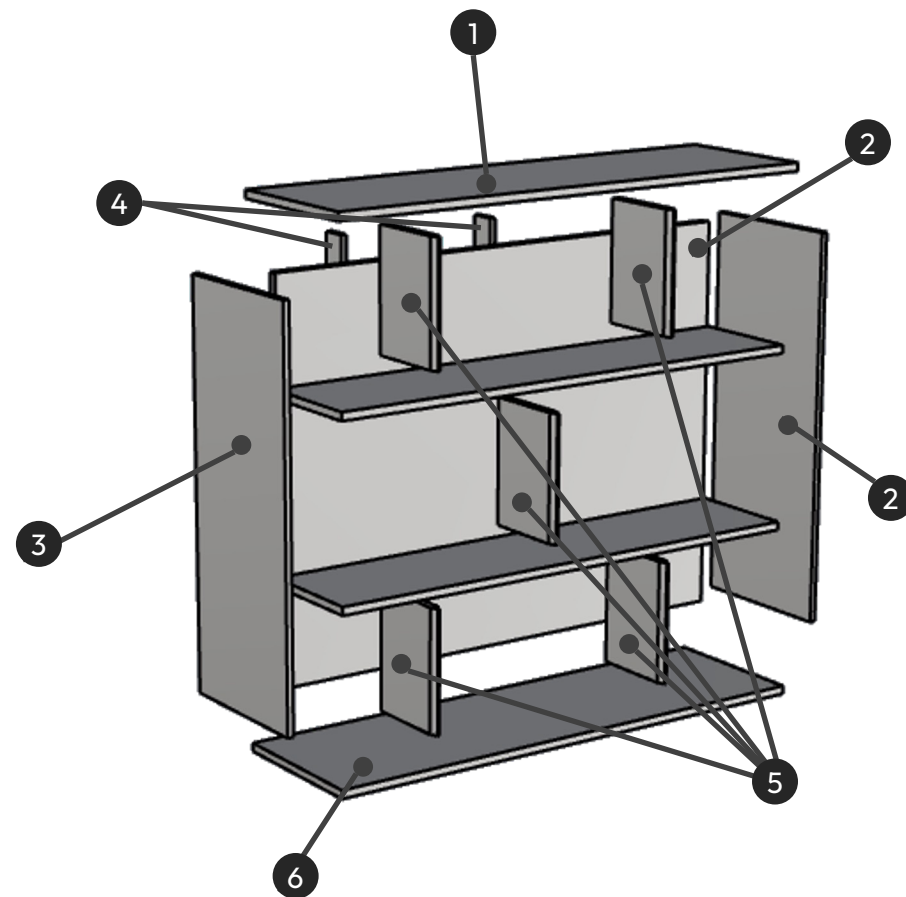

Panel Cabinet (Open Front)

Specifications:

- ❶ Top Panel: The top panel is 18mm thick and connects to the back panel and side panels using three-in-one connectors.
- ❷ Back Panel: The back panel is 18mm thick.
- ❸ Side Panels: The side panels are 18mm thick.
- ❹ Bottom Panel: The bottom panel is 18mm thick.
- ❺ Back Strut: The back strut, used for additional stability, is 18mm thick.

Product Description

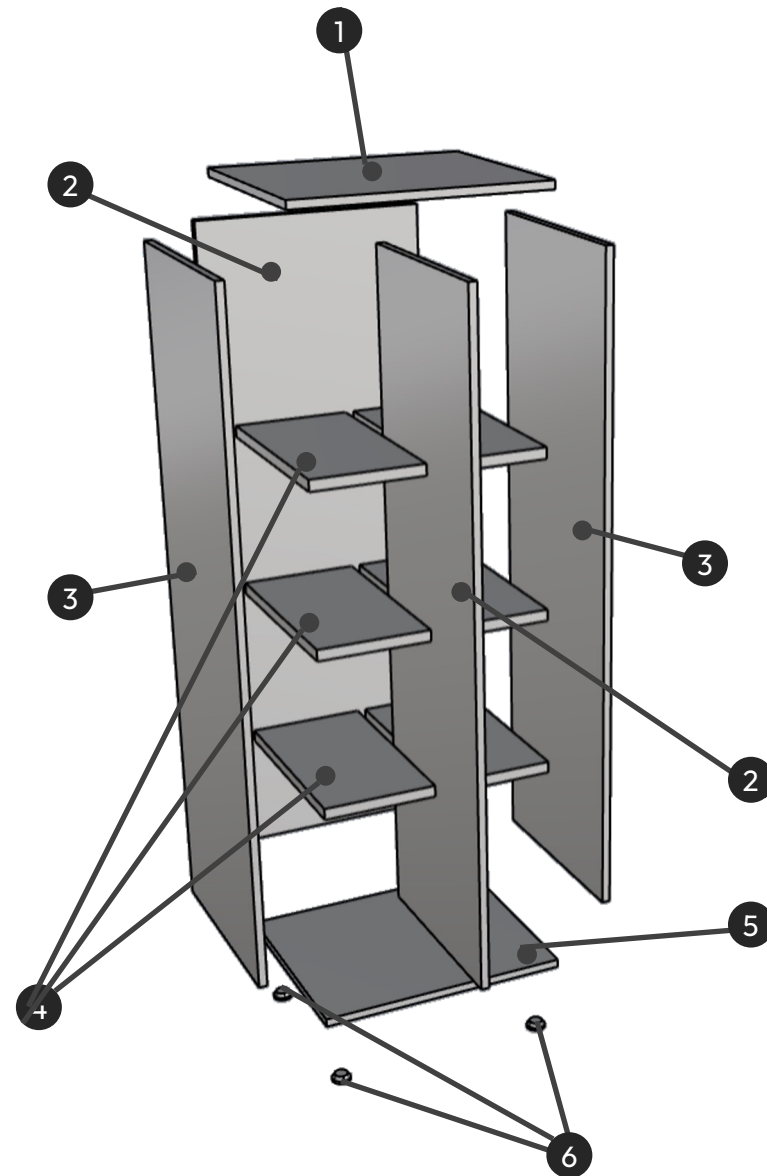

Panel Open Front Cabinet

Specifications:

- ① Top Panel: The top panel is 18mm thick and connects to the back panel and side panels using three-in-one connectors.
- ② Back Panel: The back panel is 20mm thick.
- ③ Side Panels: The side panels are 18mm thick.
- ④ Back Strut: The back strut, used for additional stability, is 18mm thick.
- ⑤ Center Partition: The center partition is 25mm thick.
- ⑥ Bottom Panel: The bottom panel is 18mm thick.

Product Description

Shelving Cabinet (Double Column)

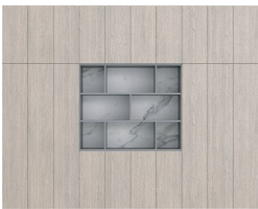

Specifications:

- ① Top Panel: The top panel is 18mm thick and connects to the back panel and side panels using three-in-one connectors.
- ② Back Panel: The back panel is 18mm thick.
- ③ Side Panels: The side panels are 18mm thick.
- ④ Fixed Shelves: The fixed shelves are 25mm thick.
- ⑤ Bottom Panel: The bottom panel is 18mm thick and comes with IF adjustable feet installed at the bottom.
- ⑥ IF Adjustable Feet: Located at the bottom of the cabinet, the IF adjustable feet can be adjusted from 0 to 10mm in height.
