

CUBE

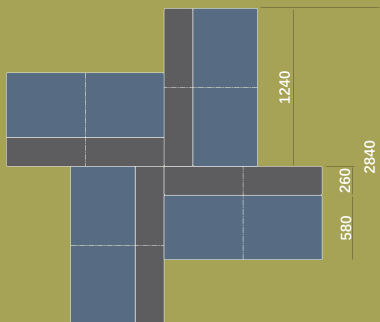

Collaborative

NOVAFH

Relax

Cube in your hands, free in your minds. Easy combinations meet your curiosity and stimulates your imagination. Make your space warm and positive, leave your strain behind and feel free and relax.

E-Tech

Cube is a gift to enhance interaction and cooperation. It stimulates imaginations in a relaxed environment. In addition to good and elegant design, charging socket and USB interface's configurations allow users to operate in a convenient and flexible manner.

You may freely change your own leisure space. It is a brand-new design purpose which CUBE multi-functional combination sofa endows the modern public leisure space with.

Simple, but diversified. Cube's powerful modular units can be configured for the leisure space as you like.

Landscape

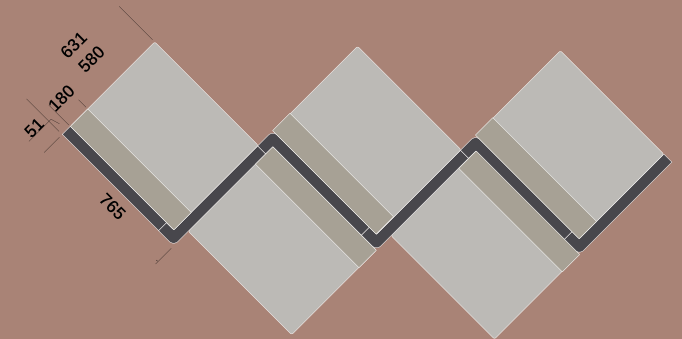

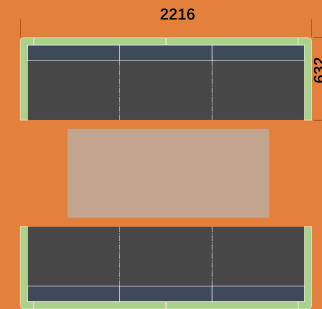

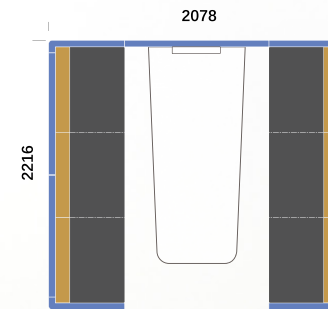

Cube creates a personalized office space that is brisk, multidimensional and welcomes interactions. This not only enriches the choices of spatial division, but also meets the requirements for teamwork and personal privacy. Furthermore, it is ergonomic, allowing you to have the comfort and warm feelings.

Platform Solution

Zigzag

Make segmentation while fully using the office space; especially suitable for the personal temporary work in the long and narrow space near window and aisle.

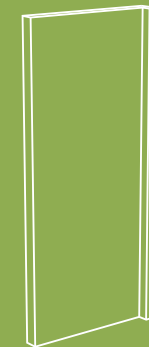

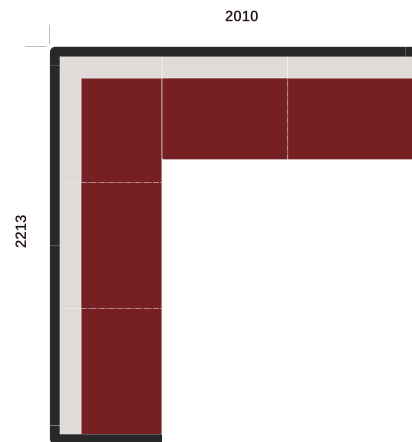

Face Time

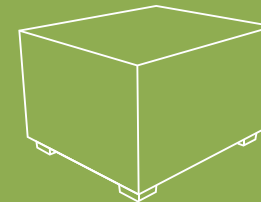

Cube makes a small space in a larger one and closes the door to external noise and other sounds. It supports one-to-one negotiation area, group discussion area and multimedia conference area.

With largely upholstery and screen system, Cube can provide you the privacy from visual and acoustic perspectives in the public area.

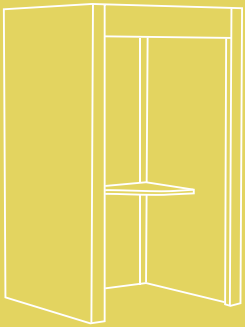

Landing

In the open planing office, Cube can provide you a semi-opened landing place, where you can find any person as you want, or find a place to relax on the way you go to the next station.

Focus

When you need to answer/make a personal call or find a space to handle some personal issues, Cube booth would be the best place for you as a work bay, thanks to the great acoustic performance, and you can be more focused at that place.

Hub Station

Cube can be also used as a Hub station in the public office. Fully enclosed product design can separate the workstation by panel, which prevents the bothering of other personnel who work in Hub. There are also bookshelf and bar, which facilitate the working at standing posture and increase the common area's spatial utilization ratio.

You may think about a scene: In a quite office , you may feel embarrassed to make a very important call or get such a call. Cube telephone booth can help you. It will never interrupt your colleagues and also help to keep your secret from the phone call. It can nail a cover, and be easy to record and convenient to check the important point which you want. Always help to build a comfortable and efficient office working environment for you.

Active Inspire

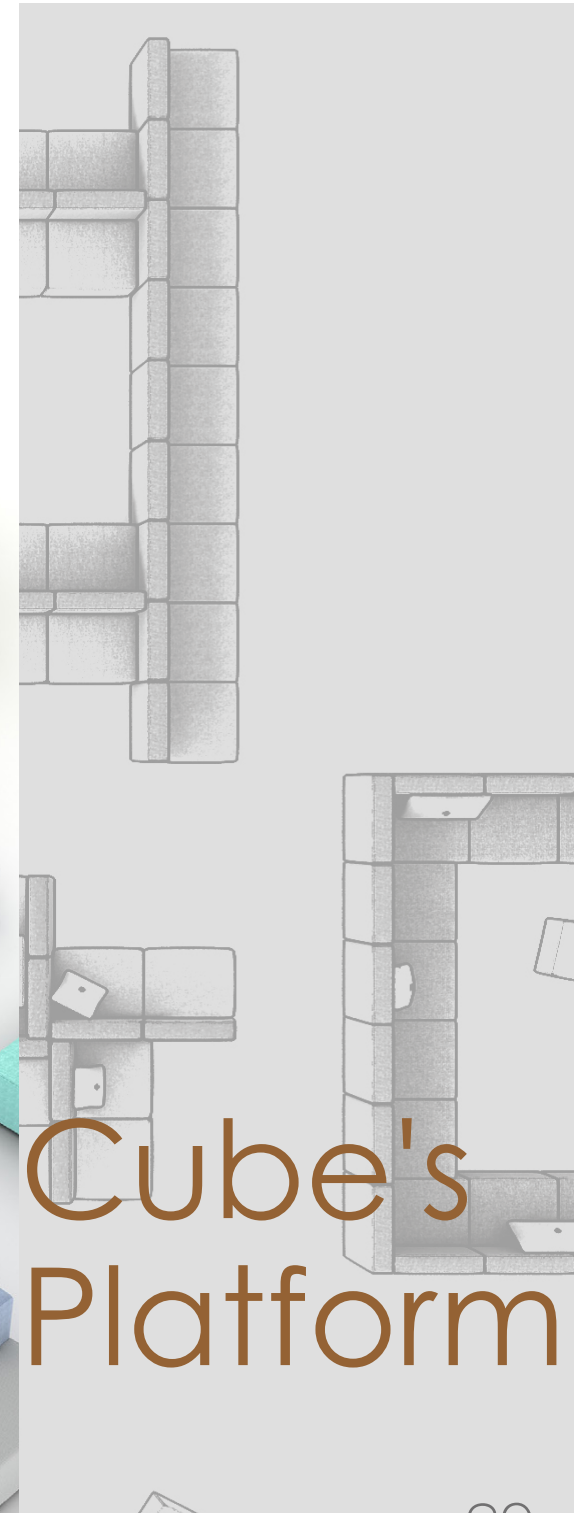

Forum

When you want to hold a brain storm or forum discussion, Cube should be a brilliant choice besides the official meeting room and training room, which can meet your points without distraction to other colleagues out of the forum but in the same office space.

Open collaboration, communicate anytime, and
meet the needs of working space.

Cube's Platform

COLOR

& Material

Cube's brilliant visual effects give user an abrupt impression, just like its colorful property. Every color shows a different temperament, for example steady, lively, reserved and individual.
