OPEN COLLABORATION

Adopting **an open and informal office format**, initiate communication and discussions in the work-place. Proximity-configured collaboration tools make temporary open exchanges more efficient.

A modern office interior featuring a long, light-colored wooden table with a black metal frame, positioned against a large floor-to-ceiling window. Several light blue plastic chairs with wooden legs are tucked under the table. The window offers a panoramic view of a dense city skyline. To the right, there is a tall potted plant in a grey pot and a black shelving unit with various decorative items. In the foreground, a black ergonomic office chair is visible, and a desk with a computer monitor is partially seen.

"A spacious footrest that can be used for resting your feet or placing personal items."

OPEN COMMUNICATION

"The fragmented space along the window walkway is an ideal spot for personnel from adjacent workstations and departments to temporarily work. It also serves as a great place for personal relaxation during breaks from work. **Light discussions for collaboration** can be easily carried out here at any time."

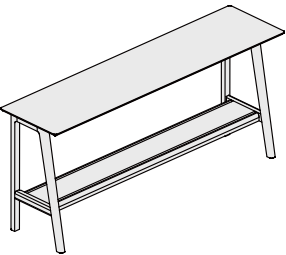

A modern office interior with large windows, wooden desks, and collaborative seating. The space is open-plan, with workstations and collaborative zones. The furniture includes wooden desks, ergonomic chairs, and high-top stools. The room is well-lit by natural light from the large windows, which offer a view of a city skyline. There are also indoor plants and a decorative ceiling element.

“Plug-and-play power supply on the desktop, supporting both strong and weak currents.”

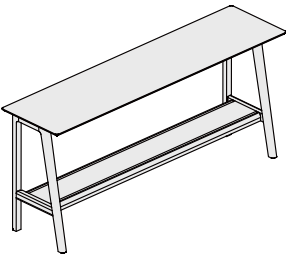

MULTI-PERSON COLLABORATION

“Open collaboration zones between workstations, divided into blocks by walkways, **facilitate open communication and multi-person collaboration areas**, achieving varying degrees of openness and complex extensions and changes in collaboration.”
