Workstation

NOVAH®

## Cluster Design, Born for All Forms of Office Environments

Cluster's design is tailored for application in all forms of office scenarios. The Cluster system provides an easily manageable office space layout, integrating personalized work tools and storage. It facilitates flexible transitions between standing and sitting positions, meeting the diverse needs of work scenarios. Cluster excels in constructing dynamic office space scenarios, allowing seamless transitions to adapt to users' work requirements.

In a constantly evolving modern workplace, the Cluster system can shape a set of movable components. Adapting to changing rules and addressing both safety requirements and the dynamic nature of the workforce.

Research indicates a preference for adaptable space solutions. Essential in modern workplaces is furniture that accommodates existing space planning and fulfills daily office needs.

# Meeting the Future

Choices and scalability can effectively adapt to the needs of organizations and their employees. As teams grow and individual preferences change, the Cluster's flexible and autonomous system configuration stands out for future adaptability.

## Desktop System

### Loop\_Desk Panel

Its unique shape is derived from Mobius streamline timeless design. It is connected with an infinite-loop space curve as a whole. The exquisite metal strip gives the product a sense of fashion, and mellow and minimalist shape so it can be better adapted to different spaces. Desktop screen guarantees more space for users, and different screen configurations offer rich screen functions.

Screen options: Standard/Nailable/Suckable

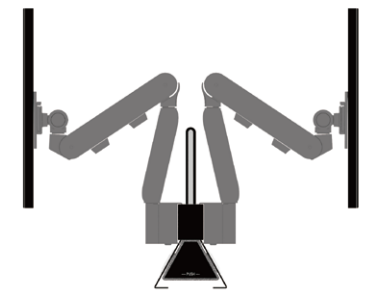

# Loop\_Desk Beam Panel

Cluster Workstation:M2  
Seda Chair:N02  
Screen:FL03

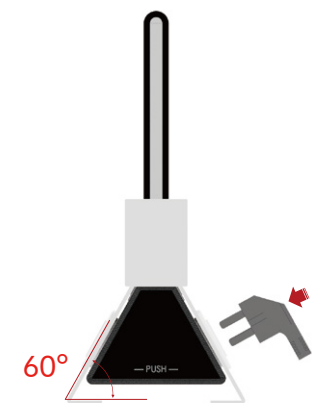

## Desktop System

## Loop\_Desk Beam Panel

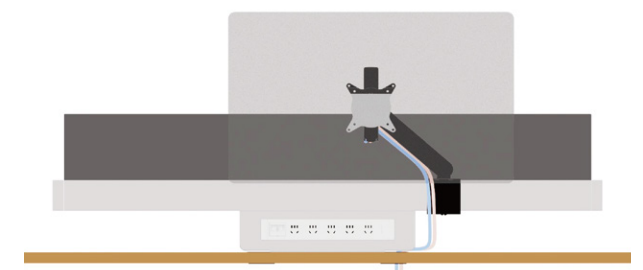

In addition to serving as screen, Loop beam includes a multi-purpose expansion platform, more convenient power supply system and more concise routing system. Loop beam makes it more convenient to obtain power and enjoy more tidy, simple office space.

Monitor stand can be added for the stand beam, creating a better office experience and more desktop space, while improving desktop cleanliness.

On the base of Beam is a powerful power supply panel that satisfies users' temporary power supply needs of desktop devices. Meanwhile, the power supply panel has a 60° slope, making it more convenient for users to get access to power supply.

Fixed power cables are routed through the side cover of beam base, helping you organize and hide various cables to keep your desk area tidy.

## Loop\_Modesty Panel\_Monolith\_Lateral

Seda Chair:N02  
Screen:MZ68141

### Desktop System

### Loop\_Modesty Panel\_Monolith\_Lateral

Loop\_Modesty Panel\_Monolith\_Lateral preserves the unique design of loop desktop and guarantees the uniformity of the space. Besides, users can enjoy the office space with higher degree of privacy. So it is suitable for office workers who need high concentration and. Loop panel hanging side screen reduces the noise of office space and makes the office space more user-friendly and comfortable.

## Desktop System

### Loop\_Modesty Panel\_Monolith\_Front

Loop\_Modesty Panel\_Monolith\_Front preserves the unique design of loop desktop and guarantees the uniformity of the space. In the meantime, undertable baffle gives user a more free and comfortable environment.

## Go with the Flow

From basic configurations to rich extensions, the various combinations of the Cluster system showcase the design's thoughtful consideration.

# Clean lines and appearance design

The Cluster Executive Desk series offers complete size configurations, adapting to different administrative needs. The clean lines complement various product combinations, creating a harmonious and consistent aesthetic for executive spaces.

## Cluster High Table Design

High tables are one of the fastest-growing applications in today's offices. As teams adopt smaller collaborative models, more system workstations are needed to support individual preferences, suitable for team work and meeting requirements. Bringing harmony and warmth to workplaces, they allow everyone to maintain their dedicated workspace.

## Possibilities of Multi-Scene Coverage

Cluster provides product configurations for sitting and standing heights to assist in office layout. From independent workspaces to project team collaboration spaces, the expanded range of product configurations positively responds to the evolving needs of individuals and teams.

## Freely Collaborative Atmosphere

Cluster offers ample space for everyone using it, supporting both assigned and unassigned staff to work harmoniously through different combinations.

# Power configuration

Using the Cluster system, the convenience of power access is achieved through carefully positioned power channels. Power positions can be specified according to requirements. The inlaid ABS flip cover ensures a smooth appearance, and the flip cover has a large-capacity cable tray for easy cable routing.

## Screen Options

Cluster can be paired with different types of screens or selected without screens, creating a collaborative office environment.

Options include desktop screens, horizontal screens, Beam screens, and storage partitions. Materials include fabric, glass, or acrylic, with framed or frameless screens, and options with pegboards or adhesive surfaces.

As market conditions continuously change, we understand that companies must adapt at a faster pace.

The Cluster system, being modular in nature, is easy to assemble, transport, and quickly install.
