Furniture as a Service

Effice is an office furniture management platform that supports hybrid working spaces to achieve self-use and self-management.

01.

Reserve

Users have the freedom to choose how long to use and what space to use according to parameters set by administrators

02.

Usage

Generation of a user log that prevents double booking of spaces by the same user

03.

Data

The management system will generate usage record

Jan 21 01:00 AM to 24:00 PM

WORKPLACE: JKT

FLOOR: TOF

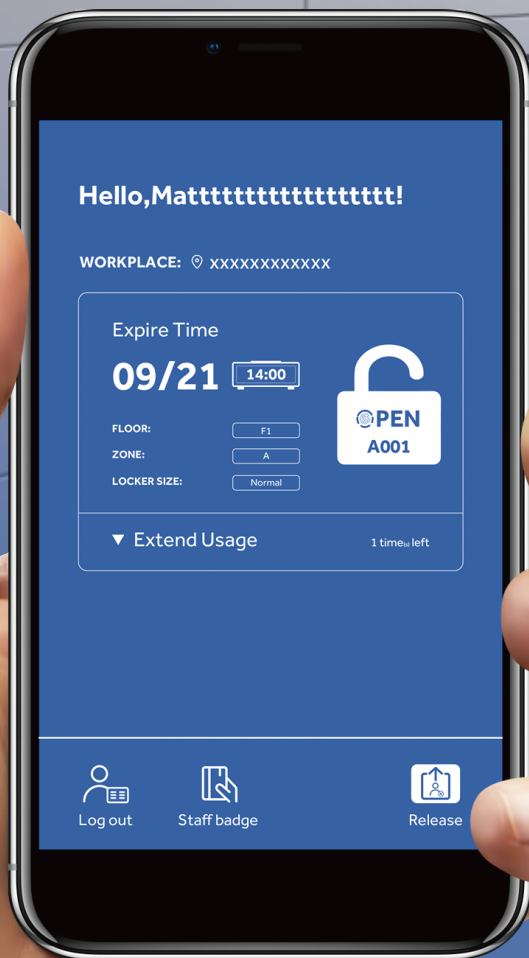

ZONE: A

Furniture number **A002**

Two Modes of Locker Allocation for Efficient Locker Use

For better efficiency in locker use, administrators can lengthen or shorten locker use time. After locker time has expired, the locker can no longer be reserved and the content of the locker can be removed to ensure locker availability for future users. Locker assignment can also be set on random mode where only available lockers are allocated for use.

Random Mode

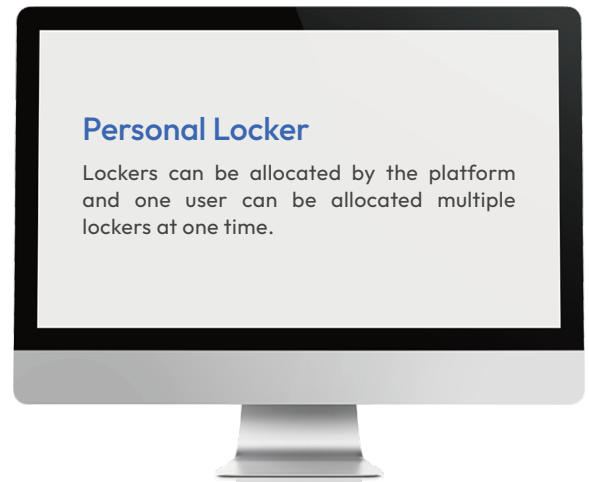

Personal Fixed Locker

For staff who needs to keep company assets, administrators can allocate personal locker to them, and staff can open the locker directly without reservation.

Daily locker A001	Daily locker A005	Daily locker A009
Daily locker A002		Daily locker A010
Personal locker  A003	Personal locker  A007	Personal locker  A011
Daily locker A004	Daily locker A008

Benefits For Users

- **Virtual Space:** Users can check desk availability online before going to the office.
- **Personalized:** Users can choose their preferred workstation based on the workstation features.
- **Find Your Colleague:** Easily find your work colleague via our virtual workstation map.
- **Prevent Double Booking:** After a workstation is reserved, the user will receive a booking record, reserving the desk for only that user.

Benefits For Employers

Cost Savings: Reduce office costs by using hotdesks instead of fixed workstations.

Improved Productivity: Users can book workstations during off peak times and check workstation availability online to make office space management more efficient.

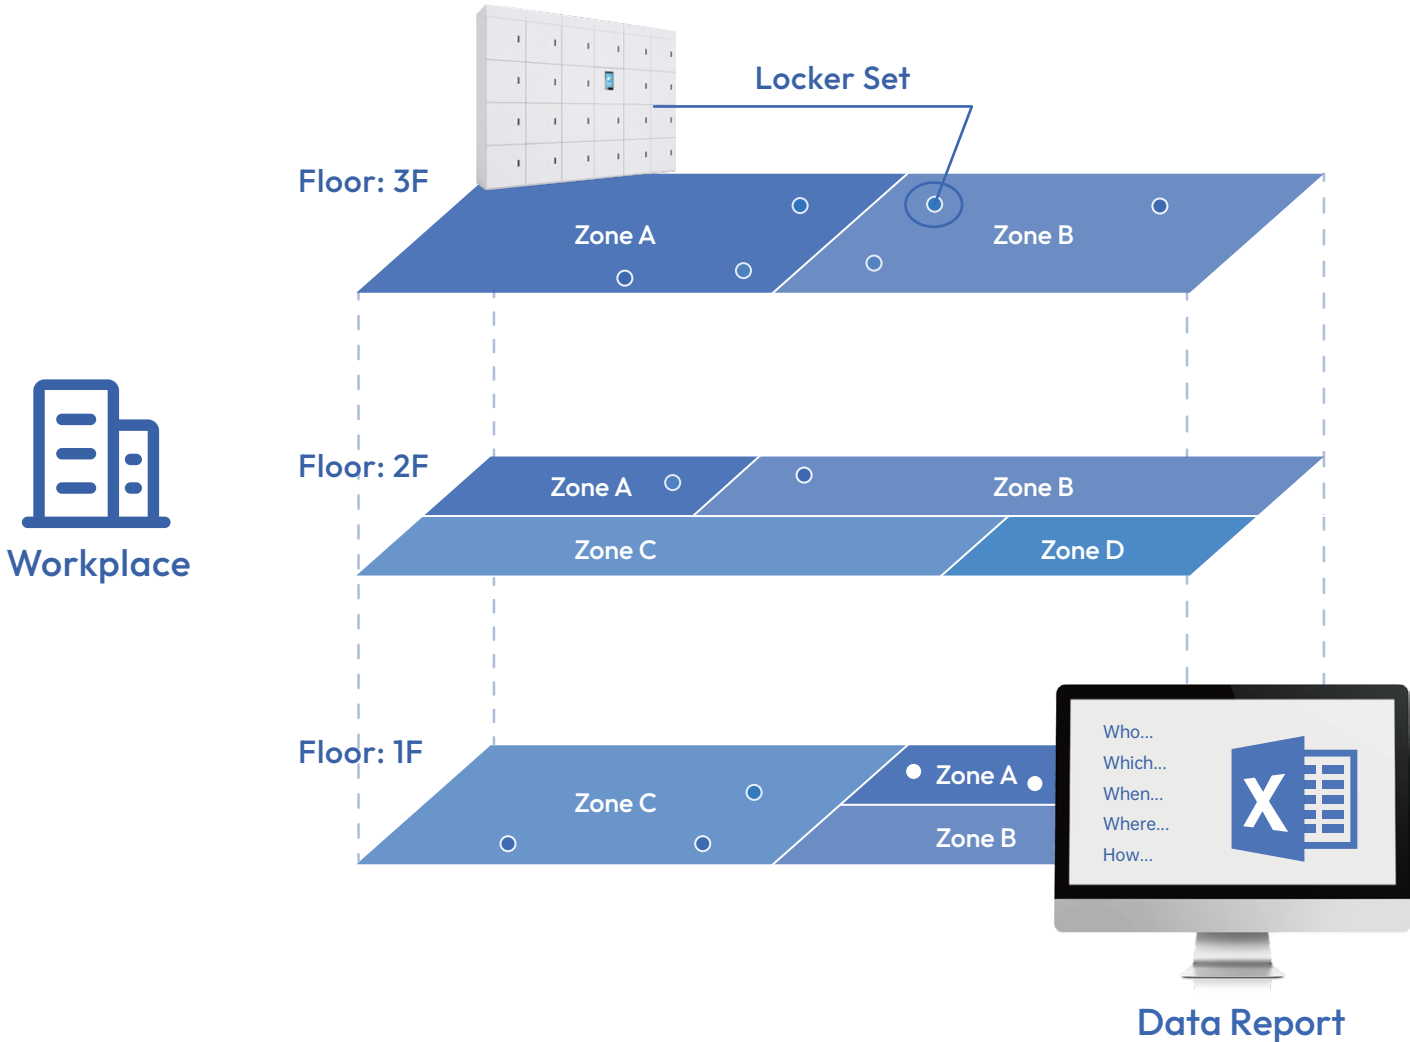

Performance Data Recording: Record user workstation use time and cost to aid user performance goal setting.

Workplace Strategy: Make strategic choices in designing your office according to employee behavior.

Collect Workplace Data from Daily Employee Use

A smooth transition to a hybrid workplace requires six dimensions of data to support decision-making

01. Capacity vs. Occupancy How many staff are in the office?	04. Workstation Space Usage Which zone do staff prefer?
02. Occupancy Rate Who needs to use lockers more than others?	05. Overcapacity When is the peak time in the office?
03. Turnover Rate What kind of polices are better?	06. Employee Requirements What are the needs of the employees?

Software

Effice Smart Office Management Platform

- Account duration for up to 5 years
- Allow for Morph Smart Locker access via QR code
- Space management functions that ensures only one user uses one locker in the workplace when there are multiple locker sets
- Generation of data reports to prevent overuse or abuse of locker privileges
- Remote service function
- Able to assign administrators at multi-levels of the platform

Effice Desk Reservation

- Includes collaboration and meeting space reservation function

Effice Mapping Package

- Includes a 350 m² continuous workplace map
- Includes 80 hot desk workstation

Hardware

Smart Dyna 2

Users check in and power on the desk by scanning staff badge and QR codes

IoT

Smart Dyna 2

(Workstation Power Activated Through Check-In)

A diagram showing a white workstation with blue backrests. To the right, there are two icons: a staff badge and a smartphone with a QR code. Below the workstation, there is an IoT icon (a gear with a signal wave) and the text 'Smart Dyna 2 (Workstation Power Activated Through Check-In)'. The entire diagram is enclosed in a blue rounded rectangle.

Grey Means "Occupied"

Red Means "Booked"

Green Means "Available"

Workstations' desk height can be adjusted after reservation and check-in for a comfortable work environment. The power supply is turned on after check-in to save on cost and avoid use by others.

Hardware

Desk Check-in Sticker

QR Code Sticker

After using the Check-in function to scan the QR code, the workstation status changes to occupied.

A graphic showing a white envelope-like shape with the 'Effice' logo at the top. Inside, there is a QR code and the ID 'F10-A023'. Below the QR code, it says 'Scan the QR code and claim the desk'. The entire graphic is enclosed in a blue rounded rectangle.

Hassle Free Upgrades

IT integration of workstations can present a multitude of challenges.

With the Effice Management Platform, you can upgrade the system hassle-free with minimal IT support. Daily maintenance is simple and straight-forward.

User Registration System

Users input their own identification information, reducing administrator workload and additional database integration cost.

More Reliable Hardware

All devices provide wired network access solutions, reducing after-sales frequency and improving data accuracy.

No Local Server Required

Effice platform is deployed on a reliable Cloud server, eliminating the cost of purchasing servers and deploying localization software.
