NOVAH

Given a growing number of people opting for sitting—a fixed posture, such a phenomenon at the expense of human health has been given little care to.

We hold that a sound working lies in the alternation between sitting and standing for a healthy balance of ergonomics.

Height Determines Vision

ATOM supervisor system, distinguished by the modern aesthetics of minimalism, gives you a chance to choose your own height. With an adjusted range from 710 to 1250, the lifting height bestows you with a healthy, unrestricted and ecological working experience.

Enjoy the core leadership of the whole. The product renders it easy to adjust the height of the platform to control the overall. Only by standing higher can one see farther.

A modern office interior featuring a light-colored wooden desk on a grey base unit. A red ergonomic office chair is positioned in front of the desk. A black adjustable desk lamp is on the desk. On the base unit, there are two bottles (one clear, one amber) and a stack of books. The room has large windows with white frames, a wooden floor, and a white ceiling with track lighting.

Enjoy the core driving force of leading technology. With Denmark's advanced Linak drive technology, the product is designed to provide more secure high-end working space for outstanding leaders only.

Convenient lifting control supports multiple conferences, enabling you to switch between standing and sitting for greater efficiency, discussion and decision-making in the conference. In addition, the product's high-quality design in its appearance and convenient lifting function are the core of the Atom product series.
