

FABIO

Executive

NOVAH

FABIO puts simplicity above all else in design, leaving behind the unnecessary metaphysical considerations of traditional supervisor's space. Simplistic yet not simple, it demonstrates more of one's attitude towards life, his wisdom as well as his taste.

We always consider how our products can become essential elements and the finishing touch in any space. Therefore, in modern executive spaces, we focus on the harmonious integration of product and environment, the interplay of light and shadow, and the overall ambiance and tone of the space.

Behind the minimalism are rich and diverse multi-level functions and colors. The combination of stone and wood gives people a sense of harmony, elegance, warmth together with simplicity. In addition, the refined modern equipment and power management system render working flexible and intelligent, enabling you to do everything.

With simple products and the most straightforward words, it displays the ultimate modern supervisor's space. The impeccable integration of layout and functions shows humility, reservation, morality and wisdom.
