The Smart podium features advanced electric height adjustment, allowing teachers to set the ideal height for long periods of comfortable teaching, reducing fatigue. With an electric tilt display, the monitor angle can be easily adjusted to suit different teaching scenarios. The specially designed pull-out display function lets teachers adjust the monitor's position as needed, ensuring clear visibility whether standing or sitting.

NOVAH® EDU

This intelligent height-adjustable lectern features removable baffle panels for convenient maintenance and enhanced operational efficiency. The cabinet incorporates trapezoidal perforations on both lateral sides to streamline classroom cable management. The 22U high-capacity rack configuration provides ample storage space, ensuring organized accommodation of educational equipment while maintaining optimal accessibility.

The intelligent height-adjustable lectern features a dedicated cable management system for organizing various connection cables, ensuring a tidy desktop. Additionally, it includes a handbag hook and a cup holder, providing convenience for teachers to store personal items and maintain an orderly lectern.

This multifunctional management station, with its innovative design, significantly enhances the efficiency and convenience of school administration. Its precisely scaled cabinet pillars ensure a swift and accurate installation process for the equipment. Featuring an under-desk drawer with adjustable partitions, it allows for flexible storage of various items, thereby maximizing the utilization of limited space. The cabinet incorporates a detachable bottom plate design, facilitating cable management and daily dust protection. Providing a comprehensive intelligent management solution, this station helps schools optimize their daily operations.
