# LANCELOT TABLE

## Lancelot Table: Where Legends Connect

### Design for the connected round table

---

· In the spirit of Round Table, where every knight had an equal voice, Lancelot Table Serie reimagines this legendary ideal for the modern workplace. Its sleek form becomes a new round table - a stage for communication, collaboration and innovation where every participant faces each other as equals, fostering open dialogue and swift decisions.

· Streamline designed table on the top of the steel fabrication with easy-access to cables, all embodies a quest for connection: people to people, ideas to actions. Acts as the modern "Grail", linking teams across distances and turning discussion into decisive outcomes.

· More than just a table - Lancelot is where leadership meets fellowship, and where technology serves human purpose. In this space, every voice is heard, every idea honored, and every decision forged in unity.

# Lancelot, is Innovation

- Hidden cable management keep the surface clear for free-flowing ideas.
- Its shape and acoustics are tuned for crisp video calls that feel like everyone's in the room.
- Around this table, inspiration moves fast—and decisions move faster.

# Lancelot, is Direction

- There's authority in its simplicity, not through grandeur but through balance and restraint.
- Leaders sit as equals, yet the table holds the gravity a strategic moment demands.
- Power and connectivity are there when needed—never seen, never distracting.

# Lancelot, is Dedication

- Every curve and joint speaks of care, down to the grain of the wood and finish of the steel.
- It doesn't just host collaboration—it invites patience, listening, and mutual respect.
- Designed to be used deeply, not just passed by.

# Lancelot, is Collaboration

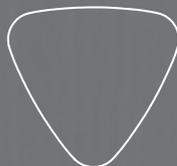

- Small teams gather close, close enough to read each other's expressions without effort.
- Light enough to reposition, solid enough to stay put during intense debate.
- Tech lives beneath the surface, so conversation stays on top.

# Lancelot, is Connection

- People face one another, not screens or corners—just open dialogue across a shared plane.
- Cables vanish, devices charge, displays connect—without a single visible port breaking the line.
- Distance dissolves when the table itself becomes the hub.

Column / Cross Beam / Base Shell\_K23

# Lancelot, is Vision

- It points toward what's ahead while keeping everyone in view.
- Strategy unfolds not from the head of the table—but from the space between voices.
- It's forward-looking, yet rooted in the equality of the round.

# Lancelot, is Emotion

- More than furniture, it's a presence—quiet, grounded, and quietly inspiring.
- It belongs in a CEO's suite as naturally as in a sunlit lounge or creative studio.
- You don't just use it. You remember the conversations that happened around it.
