FUTURE MAKER MAKE FOR FUTURE

Seventeen

5-17-year-olds are full of energy and find it challenging to maintain a fixed posture for long periods, unlike adults. The SEVENTEEN desk and chair set is tailor-made with this characteristic in mind. Its unique design ensures that children remain comfortable while allowing them the freedom to express themselves. Our goal is to help children 'stay seated' while also enabling them to fully embrace their natural vivacity. The height-adjustable feature of the SEVENTEEN desk allows children of different age groups to find the most suitable seating position, thereby enhancing their learning efficiency and enjoying the process of learning.

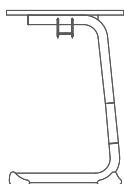

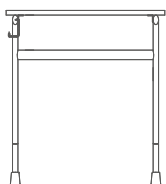

The table use oval tube frame design to enhance the stability and make it simple but more fashionable. Height adjustment design can meet all needs of student in different ages. We provide two options for the tabletop with PVC edge and injection edge, Steel book bucket. schoolbag hook is on the side.

Children aged 5-17 are lively and active by nature, that's why it is difficult for them to sit for a long time as compared with adults. Overemphasizing the upright sitting posture will only reduce their concentration on learning. The Seventeen chair supports students to sit in normal, sideways and reverse by using the ergonomic design with unique scalloped backrest, wasp-waisted and waterdrop style edge of the shell, which can help children to keep sitting and also release their nature.

Chair Legs

On the basis of student chair, we extend the design of the teacher chair. Compared with the traditional task chair, we maintain the same design feature with the classroom chairs, which can narrow the distance between teachers and students and improve the psychological security of equal dialogue.
