DESIGN CONCEPT

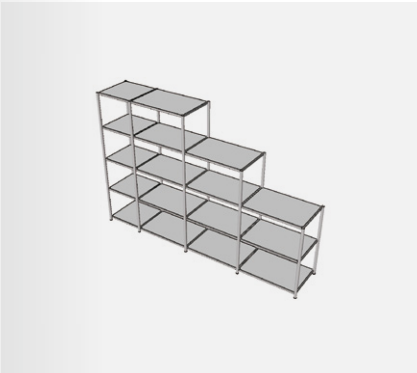

Mondi: The Story Behind the Name Mondri

Paint spaces with geometric artistry.

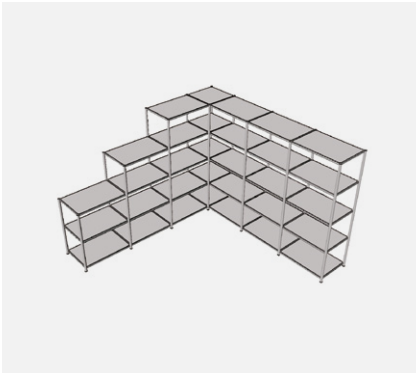

Mondi is a tribute to Dutch painter Piet Mondrian. Renowned for crisp geometric lines and solid color blocks, his artistic style aligns perfectly with the core of our shelving units: modular storage and flexible space division. We integrate the ordered aesthetics of modern art with practical functionality. Transforming storage into a unique visual composition, Mondri brings a serene yet powerful artistic style to modern offices.

Modular Design

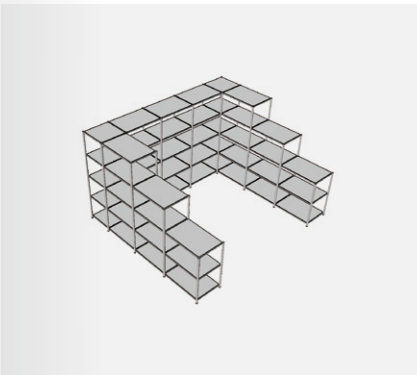

Mondi exclusive modular connection structure, standardized hardware modules for free assembly; Create versatile spaces with flexible matching & diverse configurable forms.

Space Division

Mondi shelves enable flexible zoning, insulate noise and soften sightlines to create layered spatial depth; integrating storage and display, they deliver light and vivid space division.

Workstation Storage Partition

It partitions workstations and softens sightlines to form private work zones; Its shelves align with desktops to expand usable workspace; Organized storage improves office ambiance, and multi-tier shelves enrich vertical workstation layers.

Semi-enclosed Partition

Paired with sofas, Mondi L-shaped shelves build semi-private lounge zones. The semi-enclosed frame ensures privacy while keeping space airy, integrating partition, storage and display for plants and books.
