Step 1

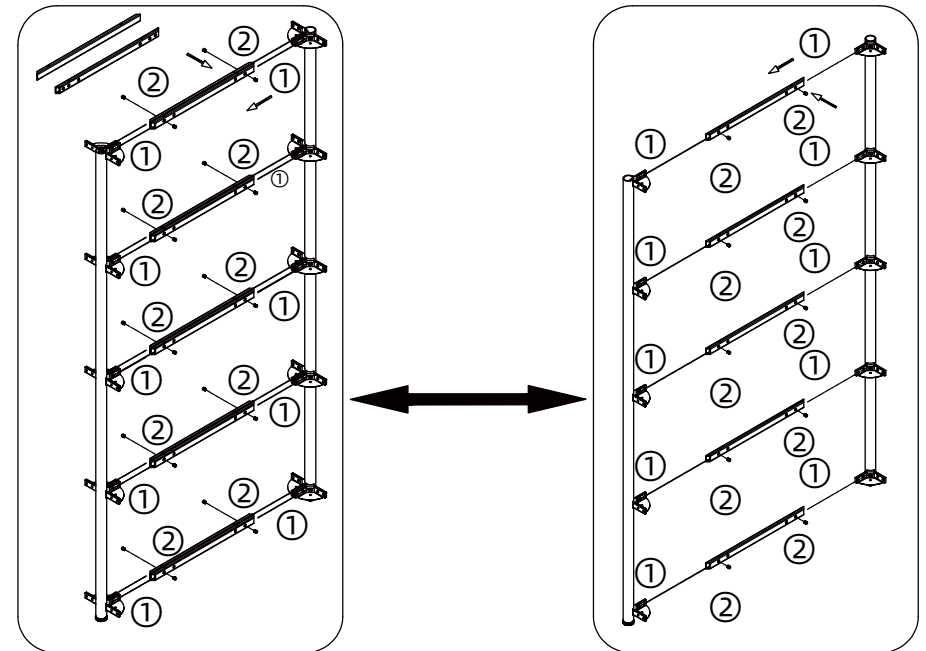

1. Install Storage Rack Uprights and Connectors

Step 2

Install Storage Rack Side Frame

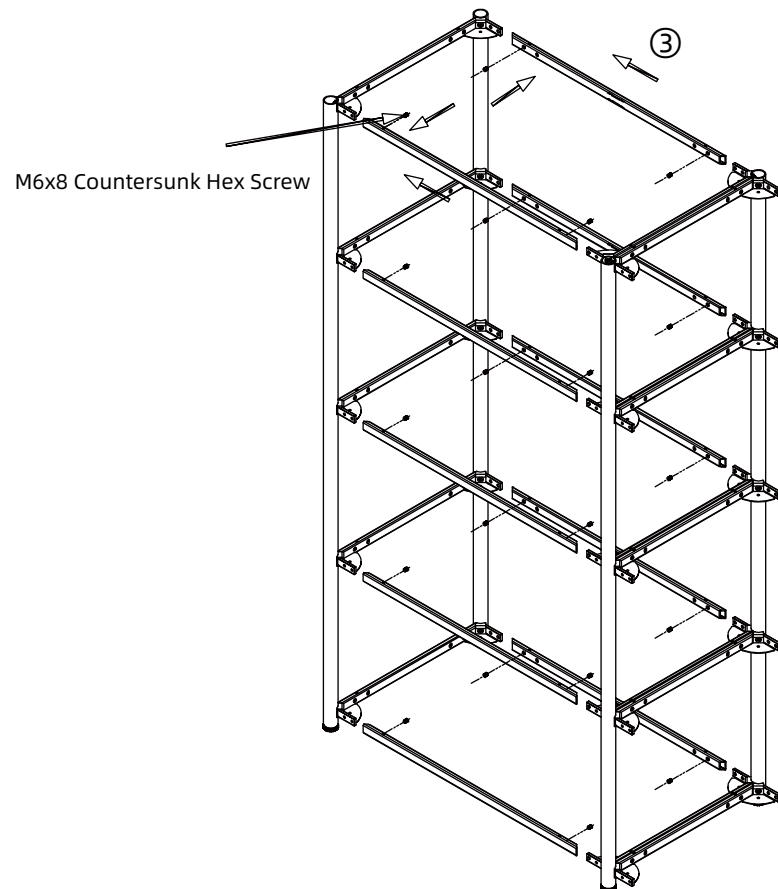

First, connect the crossbeam to the upright post as shown in ①, then secure the crossbeam as shown in ②.

Step 3

1. Install the side frame and crossbeams for the storage rack uprights

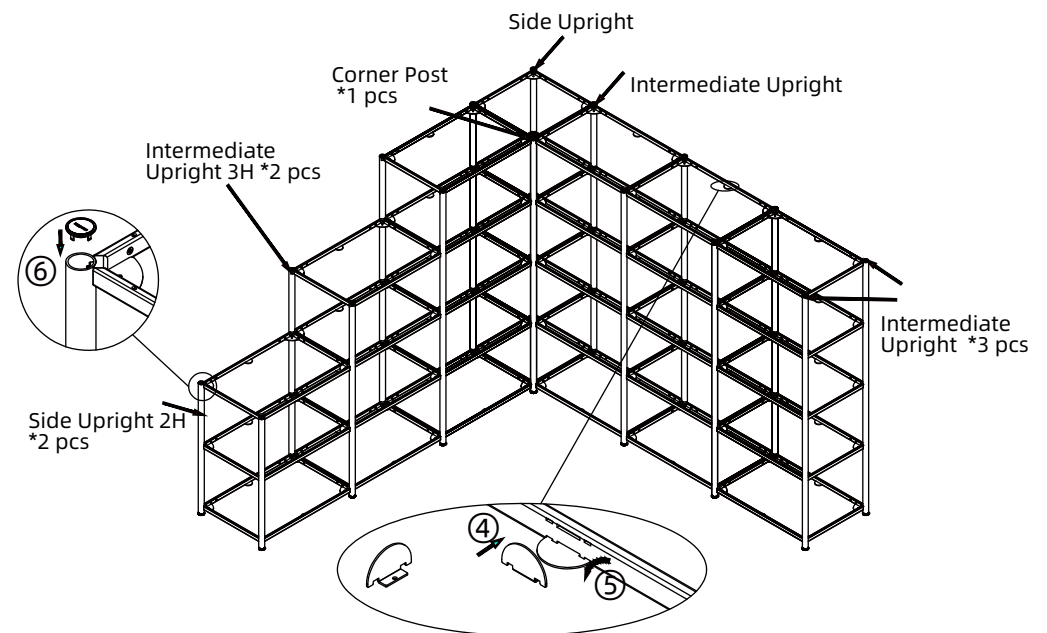

First, connect the crossbeams to the uprights as shown in diagram ③, then secure them using M6x8 countersunk hex screws.

Step 4

1. Installation of Upright Top Caps and Beam Clips

1. Insert the clip into the beam hole as shown in ④.
2. Rotate as shown in ⑤ to level the clip flat;
3. Insert the top cap as shown in ⑥; a tool may be used to tap it into place;

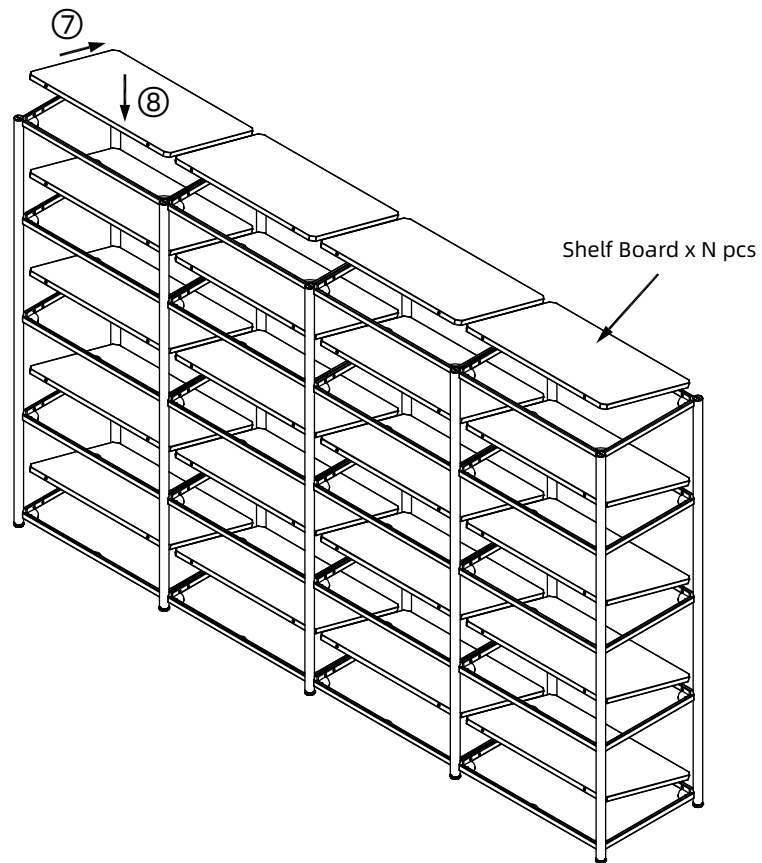

Special Note: The beam clip is not included when the single-bay width of the shelving unit is W428mm;
It is only included when the single-bay width is greater than or equal to W628mm!

Step 5

1. Install Shelving Boards

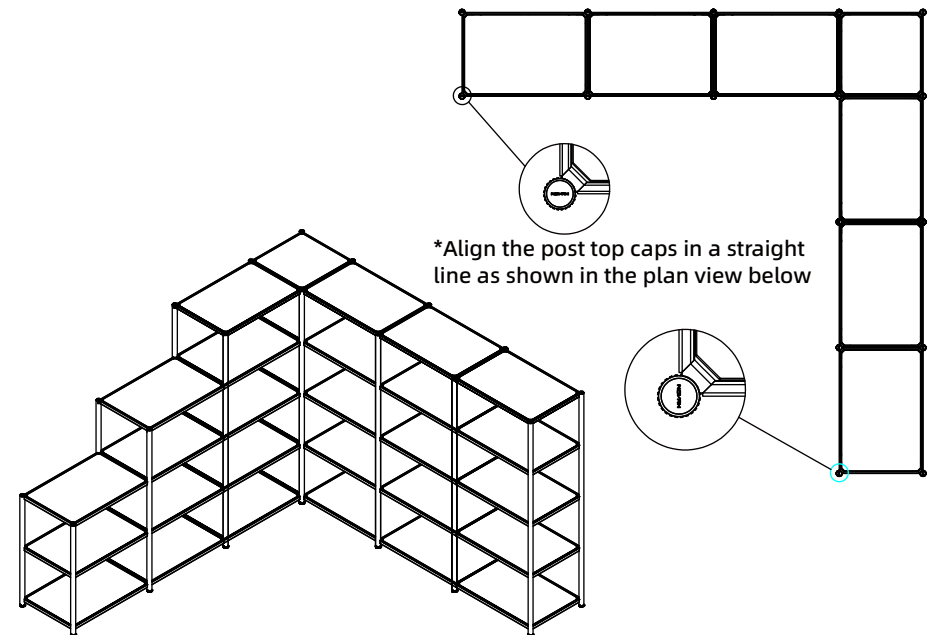

1. Insert the shelf board diagonally into the beam holes as shown in ⑦;
2. Lower the shelf board into the beam frame as shown in ⑧;

The installation method for the side panels of the L-shaped shelving unit is identical to that of single-bay and straight shelving units.
